1. Introduction

1.1 Purpose

This FRD specifies the detailed, testable behaviour of the Dashboard sub-module of TaskFlow: which dashboard each user opens, what every summary card, chart, list and filter shows, how figures are calculated, which permission controls each function, which messages appear, and how a chart part opens the matching tasks in the Task List.

1.2 Scope

In scope: the **Dashboard** menu entry and routing, the Administrator Dashboard (`/admin`), the Manager Dashboard (`/manager`), the Employee Dashboard (`/me`), their analytics sections, the filter bar, the period chips and the drill-down to the Task List. Out of scope (BRD §3.2): activity feeds, recent notifications, quick task creation, per-card permissions and any data change from the dashboard. File export of task figures belongs to the Reports sub-module (`../../05-Reports/05.1-Reports/FRD-Reports.md`).

1.3 Audience

Developer and tester (Jojo George), reviewers, and the product owner.

1.4 Conventions

- Requirement IDs: `FR-DASH-nn`. Use cases: `UC-DASH-nn`. Messages: `MSG-DASH-nn`. BRD items: `REQ-DASH-nn`, sub-module rules `BR-DASH-nn`, global rules `BR-nn` (overall BRD §6).
- Priority: **Must / Should / Could** (MoSCoW), taken from the traced BRD requirement.
- "The system shall ..." = mandatory behaviour.
- *Italic* words in labels (*name*, *n*, *range*) are filled in at run time.

1.5 Definitions & Abbreviations

Term	Meaning
Scope	Data visibility: Own (the user's tasks), Team (the manager's team), Organisation (all tasks)
Counted task	A task that is not deleted and not cancelled (BR-DASH-01)
Bucket	One of Completed, Overdue, In progress, Pending; each counted task is in exactly one (BR-DASH-02)
Open task	A counted task that is not Completed
Owner of a task	Its assignee or one of its recipients (BR-DASH-04)
Team	Active members of the departments a manager runs plus members of projects where the manager is flagged project manager, excluding the manager
Date basis	The task date that must fall in the filter range: Created date, Deadline or Completed date
Drill-down	Opening the Task List with the filter of the clicked chart part
Application timezone	The timezone set in Application Settings (default Asia/Kolkata) that decides "today"

2. System Overview

2.1 Module Map

Code	Module	Child modules	Primary roles
DASH	Dashboard	Overview (routing, summary cards, team performance summary, deadlines, department overview); Analytics (charts, filter bar, period chips, drill-down)	All signed-in users
TASK	Task Management (related)	Task List, Task Details – drill-down targets	All signed-in users
APP	Application Settings (related)	Application timezone	Administrator
ROLE	Role Configuration (related)	Grants the five dashboard permissions	Administrator
AUTH	Authentication (related, overall FRD)	Sign-in, Security Setup – lead to the dashboard	All users

2.2 Context Diagram

3. User Roles & Permissions

3.1 Roles

Role	Description	Data scope on the Dashboard
Administrator	Runs the system and its settings	Organisation (Administrator Dashboard); may also open the Manager Dashboard by direct address
Manager	Leads one or more departments or projects	Team (Manager Dashboard)
Employee	Works on assigned tasks	Own (Employee Dashboard)
Custom Role	Role created by an Administrator	Organisation if it holds `dashboard.view.organization`; Team if it holds `dashboard.view.team`; otherwise Own

Every signed-in user also has the Employee Dashboard (`/me`), because `dashboard.view.own` is Always On.

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

3.2 Permission Matrix (functional view)

Module › Function	Permission key	Administrator	Manager	Employee	Custom role
Dashboard › Open my (Employee) dashboard	`dashboard.view.own`	Always On	Always On	Always On	Always On
Dashboard › Open Manager Dashboard (team scope)	`dashboard.view.team`	Granted	Granted	Denied	Configurable
Dashboard › Open Administrator Dashboard (organisation scope)	`dashboard.view.organization`	Granted	Denied	Denied	Configurable
Dashboard › View charts and figures	`dashboard.analytics.view`	Granted	Granted	Granted	Configurable
Dashboard › Use the filter bar	`dashboard.filters.use`	Granted	Granted	Granted	Configurable
Task Management › Open drill-down tasks (Task List rules)	`tasks.view.own` / `tasks.view.all`	Always On / Granted	Always On / Granted	Always On / Denied	Always On / Configurable

The three view keys are levels: Organisation includes Team, Team includes Own (BR-DASH-07). The Employee holds `dashboard.filters.use`, but the Employee Dashboard has no filter bar; its period chips need no filter permission (BR-DASH-08). Permissions are checked by the server on every request (BR-04).

---

4. Functional Requirements by Module

4.1 Module: Dashboard (DASH)

Purpose: Show every signed-in user a summary of task work at the level they may see and let them open the exact tasks behind any figure. · **BRD reference:** BRD – Dashboard §5 SCREEN 1–3, BR-DASH-01 – BR-DASH-12; global BR-04, BR-06, BR-12, BR-17, BR-22.

4.1.1 Common: Dashboard entry, loading and calculation rules

Field	Value
Route / location	Side menu → **Dashboard** → `/admin`, `/manager` or `/me`
Access	Every signed-in user (`dashboard.view.own`, Always On); `/admin` needs `dashboard.view.organization`; `/manager` needs `dashboard.view.team`
Entry points	Sign-in (after any Security Setup), side menu **Dashboard**, direct address

Screen elements

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Element	Type	Description	Mandatory	Visible to
Dashboard	Side-menu item	Single menu item that opens the user's dashboard	–	All signed-in users
Card placeholders	Loading state	Shown on the cards while data loads	–	All signed-in users
Error banner	Banner with **Retry** button	Shown when the dashboard cannot be loaded	–	All signed-in users

Functional requirements

ID	Requirement	Priority	Permission	BRD trace
FR-DASH-01	The system shall provide one **Dashboard** side-menu item that opens: Administrator → `/admin`; Manager → `/manager`; any other role → `/admin` if it holds `dashboard.view.organization`, else `/manager` if it holds `dashboard.view.team`, else `/me`.	Must	`dashboard.view.own`	REQ-DASH-01, BR-DASH-07
FR-DASH-02	The system shall open the user's dashboard (rule of FR-DASH-01) automatically after a successful sign-in and after any required Security Setup.	Must	`dashboard.view.own`	REQ-DASH-02
FR-DASH-03	The system shall open `/admin` only for users holding `dashboard.view.organization`; any other user who enters the address shall be taken to their own dashboard without a message.	Must	`dashboard.view.organization`	REQ-DASH-03
FR-DASH-04	The system shall open `/manager` only for users holding `dashboard.view.team`; any other user who enters the address shall be taken to their own dashboard without a message.	Must	`dashboard.view.team`	REQ-DASH-03
FR-DASH-05	The system shall open `/me` for every signed-in user.	Must	`dashboard.view.own`	REQ-DASH-03
FR-DASH-06	The system shall refuse organisation dashboard data to users without `dashboard.view.organization` and team dashboard data to users without `dashboard.view.team`, independently of the screen.	Must	`dashboard.view.organization`, `dashboard.view.team`	REQ-DASH-03, NFR-DASH-01
FR-DASH-07	The system shall refuse chart and figure data on all three dashboards to users without `dashboard.analytics.view`; the screen then shows the load-error banner (FR-DASH-09).	Must	`dashboard.analytics.view`	REQ-DASH-05, BR-DASH-08
FR-DASH-08	The system shall show placeholders on the summary cards while the dashboard data loads.	Should	`dashboard.view.own`	REQ-DASH-04
FR-DASH-09	The system shall show an error banner with a **Retry** button when the dashboard cannot be loaded: MSG-DASH-01 on the Administrator and Manager dashboards, MSG-DASH-02 on the Employee Dashboard; **Retry** shall load the dashboard again with the same filter or period.	Must	`dashboard.view.own`	REQ-DASH-05

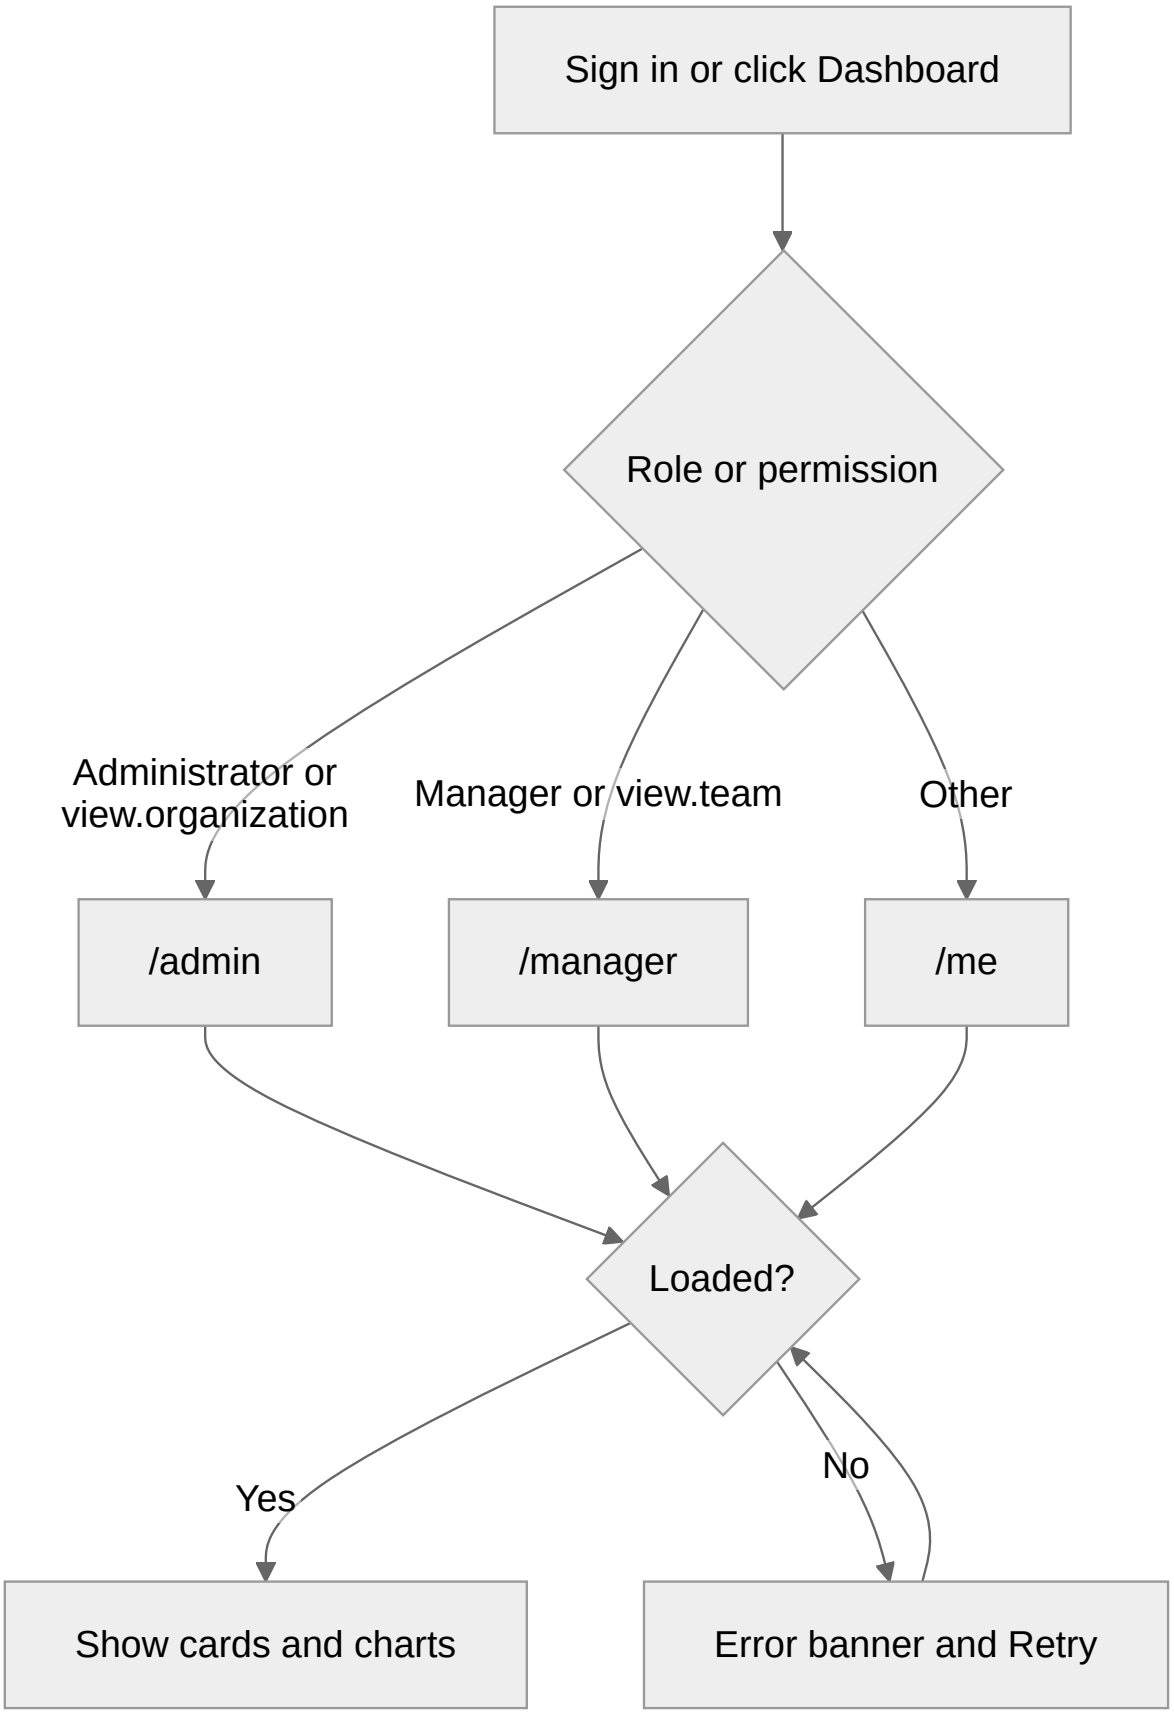

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

ID	Requirement	Priority	Permission	BRD trace
FR-DASH-10	The system shall count on every card and chart only tasks that are not deleted and not cancelled.	Must	`dashboard.analytics.view`	BR-DASH-01, REQ-DASH-06, REQ-DASH-29, REQ-DASH-46
FR-DASH-11	The system shall place each counted task in exactly one bucket: **Completed** if its status is Completed; else **Overdue** if its deadline has passed; else **In progress** if its status is In Progress or In QA; else **Pending** (To Do, Blocked).	Must	`dashboard.analytics.view`	BR-DASH-02, BR-12, BR-22
FR-DASH-12	The system shall calculate Completion (%) as completed ÷ counted tasks, rounded to the nearest whole number, and show 0 % when there are no counted tasks.	Must	`dashboard.analytics.view`	BR-DASH-03
FR-DASH-13	The system shall treat a task as belonging to a person when the person is its assignee or one of its recipients (Manager and Employee dashboards).	Must	`dashboard.analytics.view`	BR-DASH-04
FR-DASH-14	The system shall decide "today", "due today", "next 7 days" and date presets in the application timezone.	Must	`dashboard.analytics.view`	BR-DASH-05, BR-17
FR-DASH-15	The system shall not create, change or delete any data, notification, mail or activity entry when a dashboard is opened, filtered or drilled into.	Must	`dashboard.view.own`	BR-DASH-11

Use case: UC-DASH-01 – Open my dashboard

Item	Detail
Actor	Any signed-in user (Administrator, Manager, Employee, Custom Role)
Preconditions	Signed in; Security Setup completed (BR-03)
Trigger	Sign-in completes, or the user clicks **Dashboard**, or enters `/admin`, `/manager` or `/me`
Main flow	1. The system picks the dashboard by FR-DASH-01. 2. The system shows card placeholders. 3. The system loads the cards and charts for the user's scope. 4. The dashboard is shown.
Alternate flows	A1: the user enters `/admin` without `dashboard.view.organization` or `/manager` without `dashboard.view.team` → taken to their own dashboard, no message. A2: an Administrator enters `/manager` → Manager Dashboard opens (FR-DASH-58).
Exceptions	E1: load fails, or the role lacks `dashboard.analytics.view` → error banner MSG-DASH-01 / MSG-DASH-02 with **Retry**.
Postconditions	The correct dashboard is shown; no data is changed.

Field validations: *Not applicable – no input on this part.*

Business rules applied: BR-DASH-01, BR-DASH-02, BR-DASH-03, BR-DASH-04, BR-DASH-05, BR-DASH-07, BR-DASH-08, BR-DASH-11; BR-03, BR-04, BR-12, BR-17, BR-22.

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Notifications / side effects: none (BR-DASH-11).

Messages

Situation	Message
Administrator / Manager dashboard failed to load (MSG-DASH-01)	"Could not load analytics. Check your connection and try again."
Employee dashboard failed to load (MSG-DASH-02)	"Could not load your dashboard. Check your connection and try again."
No permission for a dashboard address	No message – the user is taken to their own dashboard

4.1.2 Screen: Administrator Dashboard

Field	Value
Route / location	`/admin` (side menu → **Dashboard**)
Access	Administrator; Custom Role holding `dashboard.view.organization`; charts need `dashboard.analytics.view`; filter bar needs `dashboard.filters.use`
Entry points	Sign-in, **Dashboard** menu item, direct address

Screen elements

Element	Type	Description	Mandatory	Visible to
Header	Text	"Administrator Dashboard", "Welcome back, *name*", subtitle "Organisation-wide analytics · *range* by *date basis*"	–	Users with `dashboard.view.organization`
Preset chips	Chip group	Today, Last 7 days, Last 30 days, This month, Previous month, Custom range	–	Users with `dashboard.filters.use`
From / To	Date inputs	Start and end of the range	Yes (both)	Users with `dashboard.filters.use`
Date basis	Drop-down	Created date, Deadline, Completed date	Yes	Users with `dashboard.filters.use`
Department, Project, Manager, Employee	Drop-downs	Optional narrowing filters	No	Users with `dashboard.filters.use`
Reset	Button	Returns to the default filter	–	Users with `dashboard.filters.use`
Summary cards	10 cards	Employees, Managers, Departments, Projects, Total tasks, Completed, In progress, Pending, Overdue, Completion (%)	–	Users with `dashboard.analytics.view`

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Element	Type	Description	Mandatory	Visible to
Task status & priority	2 donut charts	Share of tasks per status bucket and per priority; slices clickable	–	Users with `dashboard.analytics.view`
Completion trend	Line chart	Tasks created vs completed per day or per week; points clickable	–	Users with `dashboard.analytics.view`
Deadlines	Bar chart	Open tasks: Overdue, Due today, Next 7 days, Later; bars clickable	–	Users with `dashboard.analytics.view`
Department-wise tasks	Stacked bars	Tasks per department by status, "No department" row when needed	–	Users with `dashboard.analytics.view`
Employee-wise workload	Bars + toggle	Top 10 by open tasks; **View all *n* employees with tasks** / **Show top 10**	–	Users with `dashboard.analytics.view`
Manager-wise teams	Table	Manager, Depts, Staff, Projects and task counts; counts clickable	–	Users with `dashboard.analytics.view`
Project-wise progress	Progress list	Progress per project with "Projected end"; project clickable	–	Users with `dashboard.analytics.view`
Empty-state note	Text	Shown when no task matches the filters	–	Users with `dashboard.analytics.view`

Functional requirements

ID	Requirement	Priority	Permission	BRD trace
FR-DASH-16	The system shall show ten summary cards: Employees, Managers, Departments, Projects, Total tasks, Completed, In progress, Pending, Overdue and Completion (%), with the task cards following FR-DASH-10 – FR-DASH-12.	Must	`dashboard.view.organization` + `dashboard.analytics.view`	REQ-DASH-06
FR-DASH-17	The system shall count on the **Employees** card the active users whose role cannot view all tasks.	Must	`dashboard.view.organization` + `dashboard.analytics.view`	REQ-DASH-07
FR-DASH-18	The system shall count on the **Managers** card the users holding the Manager system role.	Must	`dashboard.view.organization` + `dashboard.analytics.view`	REQ-DASH-08
FR-DASH-19	The system shall show task status (by bucket) and task priority as two donut charts.	Must	`dashboard.analytics.view`	REQ-DASH-09

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

ID	Requirement	Priority	Permission	BRD trace
FR-DASH-20	The system shall show a completion trend of tasks created versus tasks completed per day when the range is 31 days or shorter.	Should	`dashboard.analytics.view`	REQ-DASH-10
FR-DASH-21	The system shall show the completion trend per week, with weeks starting on Monday, when the range is longer than 31 days.	Should	`dashboard.analytics.view`	REQ-DASH-11
FR-DASH-22	The system shall build the completion trend from created and completed dates in the selected range, whatever the date basis.	Should	`dashboard.analytics.view`	BR-DASH-06, REQ-DASH-10
FR-DASH-23	The system shall show open tasks by deadline window: Overdue (deadline passed), Due today (rest of today), Next 7 days (tomorrow up to 7 days ahead), Later.	Must	`dashboard.analytics.view`	REQ-DASH-12
FR-DASH-24	The system shall show department-wise tasks as bars stacked by status bucket, with a "No department" row when counted tasks belong to no department.	Should	`dashboard.analytics.view`	REQ-DASH-13
FR-DASH-25	The system shall show employee-wise workload for the top 10 people by open tasks.	Should	`dashboard.analytics.view`	REQ-DASH-14
FR-DASH-26	The system shall switch the employee-wise workload between all employees with tasks (**View all *n* employees with tasks**) and the top 10 (**Show top 10**).	Could	`dashboard.analytics.view`	REQ-DASH-15
FR-DASH-27	The system shall show manager-wise teams with the columns Manager, Depts, Staff, Projects and task counts.	Should	`dashboard.analytics.view`	REQ-DASH-16
FR-DASH-28	The system shall show project-wise progress with a "Projected end" equal to the latest task deadline in the project.	Should	`dashboard.analytics.view`	REQ-DASH-17
FR-DASH-29	The system shall show the empty-state messages MSG-DASH-03 (no task matches), MSG-DASH-04 (empty chart), MSG-DASH-05 (empty trend), MSG-DASH-06 (no projects) and MSG-DASH-07 (no managers).	Should	`dashboard.analytics.view`	REQ-DASH-28
FR-DASH-30	The system shall show the filter bar only to users holding `dashboard.filters.use`.	Must	`dashboard.filters.use`	REQ-DASH-18
FR-DASH-31	The system shall load the filter choices (departments, projects, employees, managers) only for users holding `dashboard.filters.use` and the dashboard's view key.	Should	`dashboard.filters.use` + `dashboard.view.organization`	REQ-DASH-18, REQ-DASH-22
FR-DASH-32	The system shall apply the default filter Last 30 days (ending today) by Created date when the dashboard opens.	Must	`dashboard.analytics.view`	REQ-DASH-19
FR-DASH-33	The system shall let the user choose a preset (Today, Last 7 days, Last 30 days, This month, Previous month) or **Custom range** with From and To dates.	Must	`dashboard.filters.use`	REQ-DASH-20

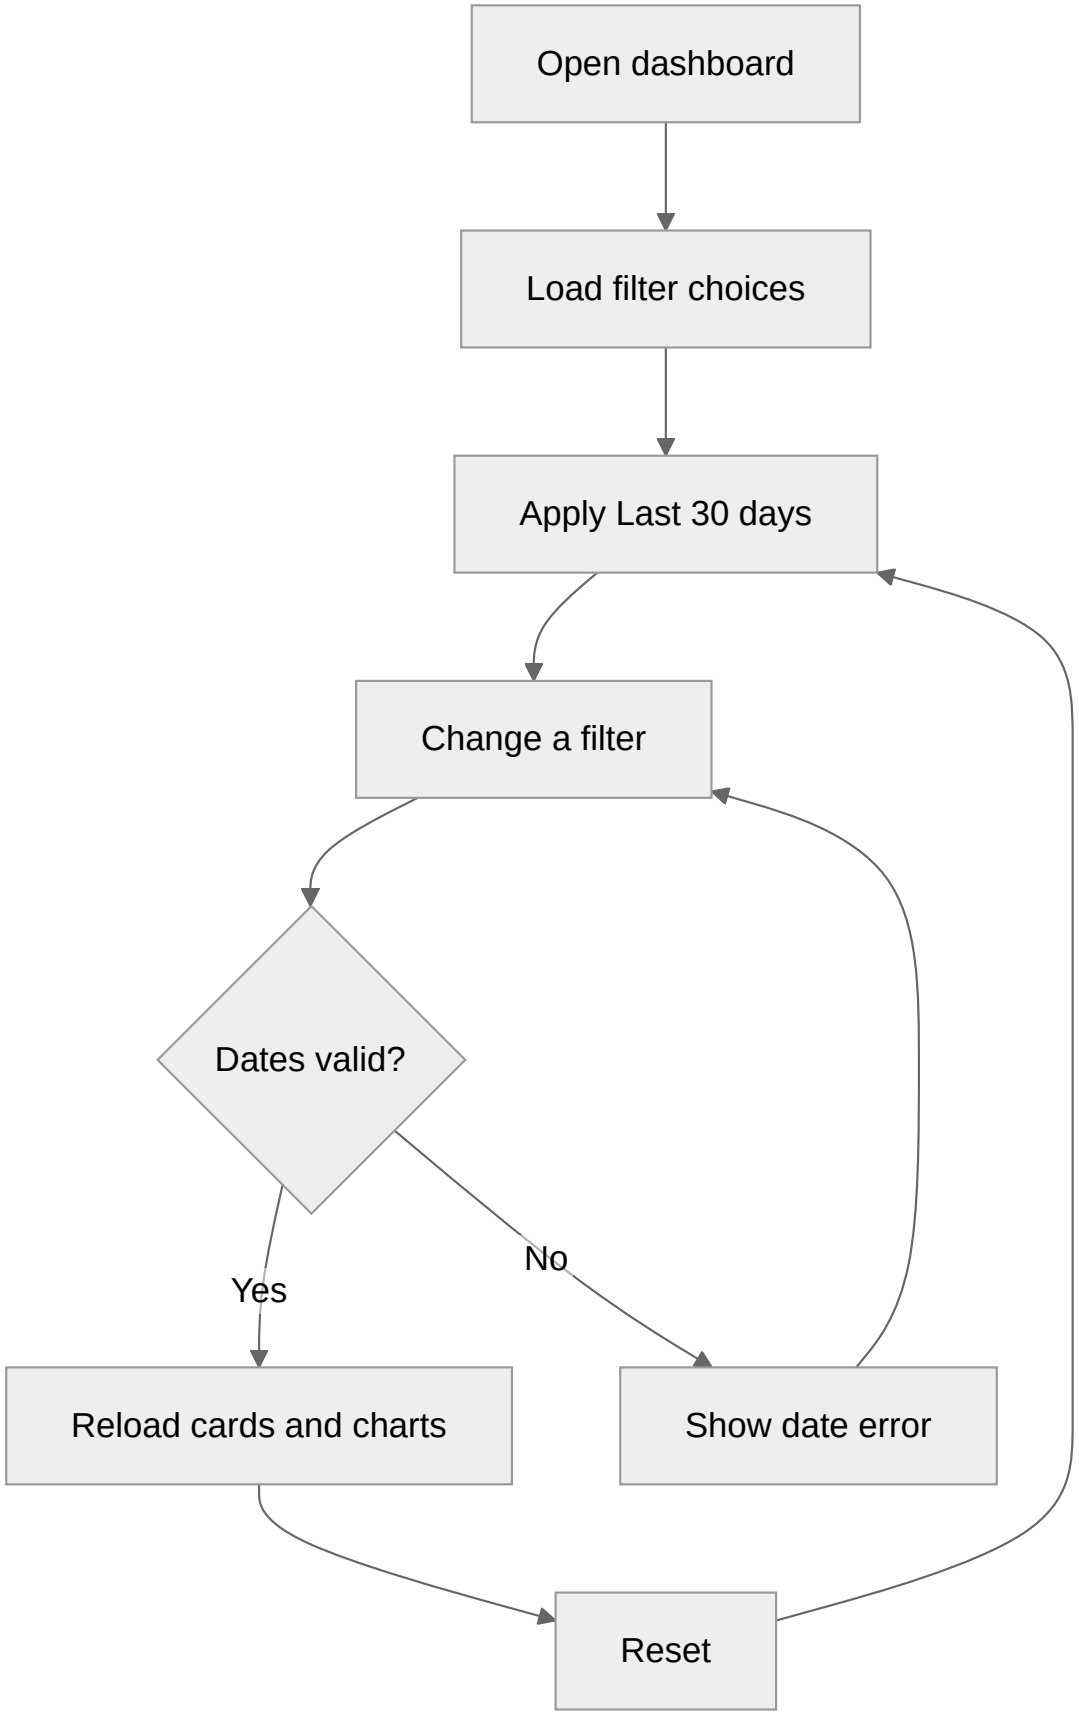

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

ID	Requirement	Priority	Permission	BRD trace
FR-DASH-34	The system shall let the user choose the date basis Created date, Deadline or Completed date, and count only tasks whose chosen date falls in the range.	Must	`dashboard.filters.use`	REQ-DASH-21, BR-DASH-06
FR-DASH-35	The system shall let the Administrator narrow the figures by one Department, Project, Manager and Employee, in any combination.	Should	`dashboard.filters.use`	REQ-DASH-22
FR-DASH-36	The system shall check the dates on the screen before reloading: both dates required (MSG-DASH-08) and end not before start (MSG-DASH-09); an invalid filter shall not be sent.	Must	`dashboard.filters.use`	REQ-DASH-20, REQ-DASH-24
FR-DASH-37	The system shall refuse a filter whose range is 3660 days or longer, whose date basis is not valid, or that names a department, project, employee or manager that does not exist; the screen shows MSG-DASH-01.	Should	`dashboard.filters.use`	REQ-DASH-23
FR-DASH-38	The system shall reload every card and chart when a valid filter is applied and update the subtitle to the new range and basis (for example "Last 7 days by deadline").	Must	`dashboard.filters.use`	REQ-DASH-24
FR-DASH-39	The system shall return to Last 30 days by Created date with no other filter when **Reset** is clicked, and reload.	Should	`dashboard.filters.use`	REQ-DASH-25

Use case: UC-DASH-02 – Filter dashboard analytics

Item	Detail
Actor	Administrator (also Manager on `/manager`, see 4.1.3)
Preconditions	On the Administrator Dashboard; holds `dashboard.filters.use` and `dashboard.analytics.view`
Trigger	Changes a preset, From / To, Date basis, Department, Project, Manager or Employee
Main flow	1. The system has loaded the filter choices and the default Last 30 days by Created date. 2. The user picks, e.g., **Previous month**, Date basis **Deadline**, Department **Engineering**. 3. The system checks the dates. 4. The system reloads all ten cards and every chart and changes the subtitle.
Alternate flows	A1: **Custom range** – the user enters From and To. A2: **Reset** – back to the default (FR-DASH-39).
Exceptions	E1: a date missing → MSG-DASH-08, no reload. E2: end before start → MSG-DASH-09, no reload. E3: range 3660 days or longer, or a filter refused by the server → MSG-DASH-01 with **Retry**.
Postconditions	Figures match the filter; no data is changed.

Field validations

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Field	Rule	Error message
From / To	Both required	"Choose both a start and an end date."
To	Not before From	"The end date cannot be before the start date."
Range	Shorter than 3660 days (server check)	Screen shows "Could not load analytics. Check your connection and try again."
Date basis	Created date, Deadline or Completed date (server check)	Screen shows "Could not load analytics. Check your connection and try again."
Department / Project / Manager / Employee	Must exist (server check)	Screen shows "Could not load analytics. Check your connection and try again."

Business rules applied: BR-DASH-01 – BR-DASH-03, BR-DASH-05, BR-DASH-06, BR-DASH-08, BR-DASH-12; BR-06, BR-22.

Notifications / side effects: none (BR-DASH-11).

Messages

Situation	Message
No task matches (MSG-DASH-03)	"No tasks match these filters. Try a wider date range or reset the filters."
Empty chart (MSG-DASH-04)	"No tasks match these filters."
Empty trend (MSG-DASH-05)	"No tasks were created or completed in this period."
No projects (MSG-DASH-06)	"No projects match these filters."
No managers (MSG-DASH-07)	"No managers match these filters."
Date missing (MSG-DASH-08)	"Choose both a start and an end date."
End before start (MSG-DASH-09)	"The end date cannot be before the start date."
Load failed / filter refused (MSG-DASH-01)	"Could not load analytics. Check your connection and try again."

4.1.3 Screen: Manager Dashboard

Field	Value
Route / location	`/manager` (side menu → **Dashboard**)
Access	Manager; Custom Role holding `dashboard.view.team`; Administrator by direct address; charts need `dashboard.analytics.view`; filter bar needs `dashboard.filters.use`
Entry points	Sign-in, **Dashboard** menu item, direct address

Screen elements

Element	Type	Description	Mandatory	Visible to
Header	Text	"Manager Dashboard", "Welcome back, *name*", subtitle "Team analytics · *range* by *date basis*"	–	Users with `dashboard.view.team`

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Element	Type	Description	Mandatory	Visible to
Filter bar	Chips, dates, drop-downs	As on the Administrator Dashboard without Department and Manager; Project and Employee limited to the team	–	Users with `dashboard.filters.use`
Summary cards	6 cards	Team tasks, Completed, In progress, Pending, Overdue, Completion (%)	–	Users with `dashboard.analytics.view`
Most overdue tasks	List (up to 5)	Task with "*n* days overdue"; opens Task Details	–	Users with `dashboard.analytics.view`
Projects needing attention	List (up to 5)	Projects with overdue team tasks; opens the Task List	–	Users with `dashboard.analytics.view`
Task status & priority	2 donut charts	Team tasks by bucket and priority; slices clickable	–	Users with `dashboard.analytics.view`
Project-wise progress	Progress list	Team progress per project with "Projected end"	–	Users with `dashboard.analytics.view`
Employee-wise workload	Table	Member, Open, Done, Overdue, Completion, Flag, Tasks-by-status bar	–	Users with `dashboard.analytics.view`
No-team note	Text	Shown when the team is empty	–	Users with `dashboard.view.team`

Functional requirements

ID	Requirement	Priority	Permission	BRD trace
FR-DASH-40	The system shall show six summary cards: Team tasks, Completed, In progress, Pending, Overdue and Completion (%), following FR-DASH-10 – FR-DASH-12.	Must	`dashboard.view.team` + `dashboard.analytics.view`	REQ-DASH-29
FR-DASH-41	The system shall work out the team as the active members of the departments the manager runs plus the members of projects where the manager is flagged project manager, excluding the manager.	Must	`dashboard.view.team`	REQ-DASH-30
FR-DASH-42	The system shall limit every figure on the Manager Dashboard to tasks that belong to a team member (FR-DASH-13).	Must	`dashboard.view.team`	REQ-DASH-30, BR-DASH-09
FR-DASH-43	The system shall show MSG-DASH-10 instead of team figures when a Manager has nobody on the team.	Must	`dashboard.view.team`	REQ-DASH-31
FR-DASH-44	The system shall show MSG-DASH-11 instead of MSG-DASH-10 when an Administrator without a team opens the Manager Dashboard.	Could	`dashboard.view.team`	REQ-DASH-32

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

ID	Requirement	Priority	Permission	BRD trace
FR-DASH-45	The system shall list under "Most overdue tasks" up to 5 overdue team tasks, most overdue first, each with "*n* days overdue", and MSG-DASH-12 when none is overdue.	Must	`dashboard.analytics.view`	REQ-DASH-33
FR-DASH-46	The system shall open Task Details (`/tasks/:id`) when a task in "Most overdue tasks" is clicked.	Must	`dashboard.analytics.view` (Task Details applies its own access)	REQ-DASH-34
FR-DASH-47	The system shall list under "Projects needing attention" up to 5 projects with the most overdue team tasks.	Should	`dashboard.analytics.view`	REQ-DASH-35
FR-DASH-48	The system shall open the Task List with that project's overdue team tasks when a project in "Projects needing attention" is clicked.	Should	`dashboard.analytics.view`	REQ-DASH-36
FR-DASH-49	The system shall show the team's task status and priority donuts and project-wise progress with "Projected end".	Must	`dashboard.analytics.view`	REQ-DASH-37
FR-DASH-50	The system shall show an employee-wise workload table with Open, Done, Overdue, Completion, Flag and a tasks-by-status bar for each team member, and MSG-DASH-14 when there are no members to show.	Must	`dashboard.analytics.view`	REQ-DASH-38
FR-DASH-51	The system shall flag a member **High workload** when the member's open tasks are at least 5 and at least 1.5 × the team's average open tasks.	Must	`dashboard.analytics.view`	REQ-DASH-39
FR-DASH-52	The system shall flag a member **Overdue** when the member has at least one overdue task.	Must	`dashboard.analytics.view`	REQ-DASH-40
FR-DASH-53	The system shall compare a single employee chosen in the filter with the whole team's average.	Should	`dashboard.filters.use`	REQ-DASH-41
FR-DASH-54	The system shall show the Manager's filter bar without the Department and Manager fields and ignore those values if sent.	Must	`dashboard.filters.use`	REQ-DASH-42
FR-DASH-55	The system shall offer in the Manager's Employee list only team members and in the Project list only projects in the manager's scope (projects the manager is assigned to or that the team's tasks belong to).	Must	`dashboard.filters.use` + `dashboard.view.team`	REQ-DASH-43
FR-DASH-56	The system shall refuse a Manager filter naming an employee outside the team or a project outside the manager's scope; the screen shows MSG-DASH-01.	Must	`dashboard.view.team`	REQ-DASH-44, NFR-DASH-01
FR-DASH-57	The system shall show MSG-DASH-13 when no team task matches the filters.	Should	`dashboard.analytics.view`	REQ-DASH-37
FR-DASH-58	The system shall let an Administrator open the Manager Dashboard by its direct address `/manager` .	Could	`dashboard.view.team`	REQ-DASH-45

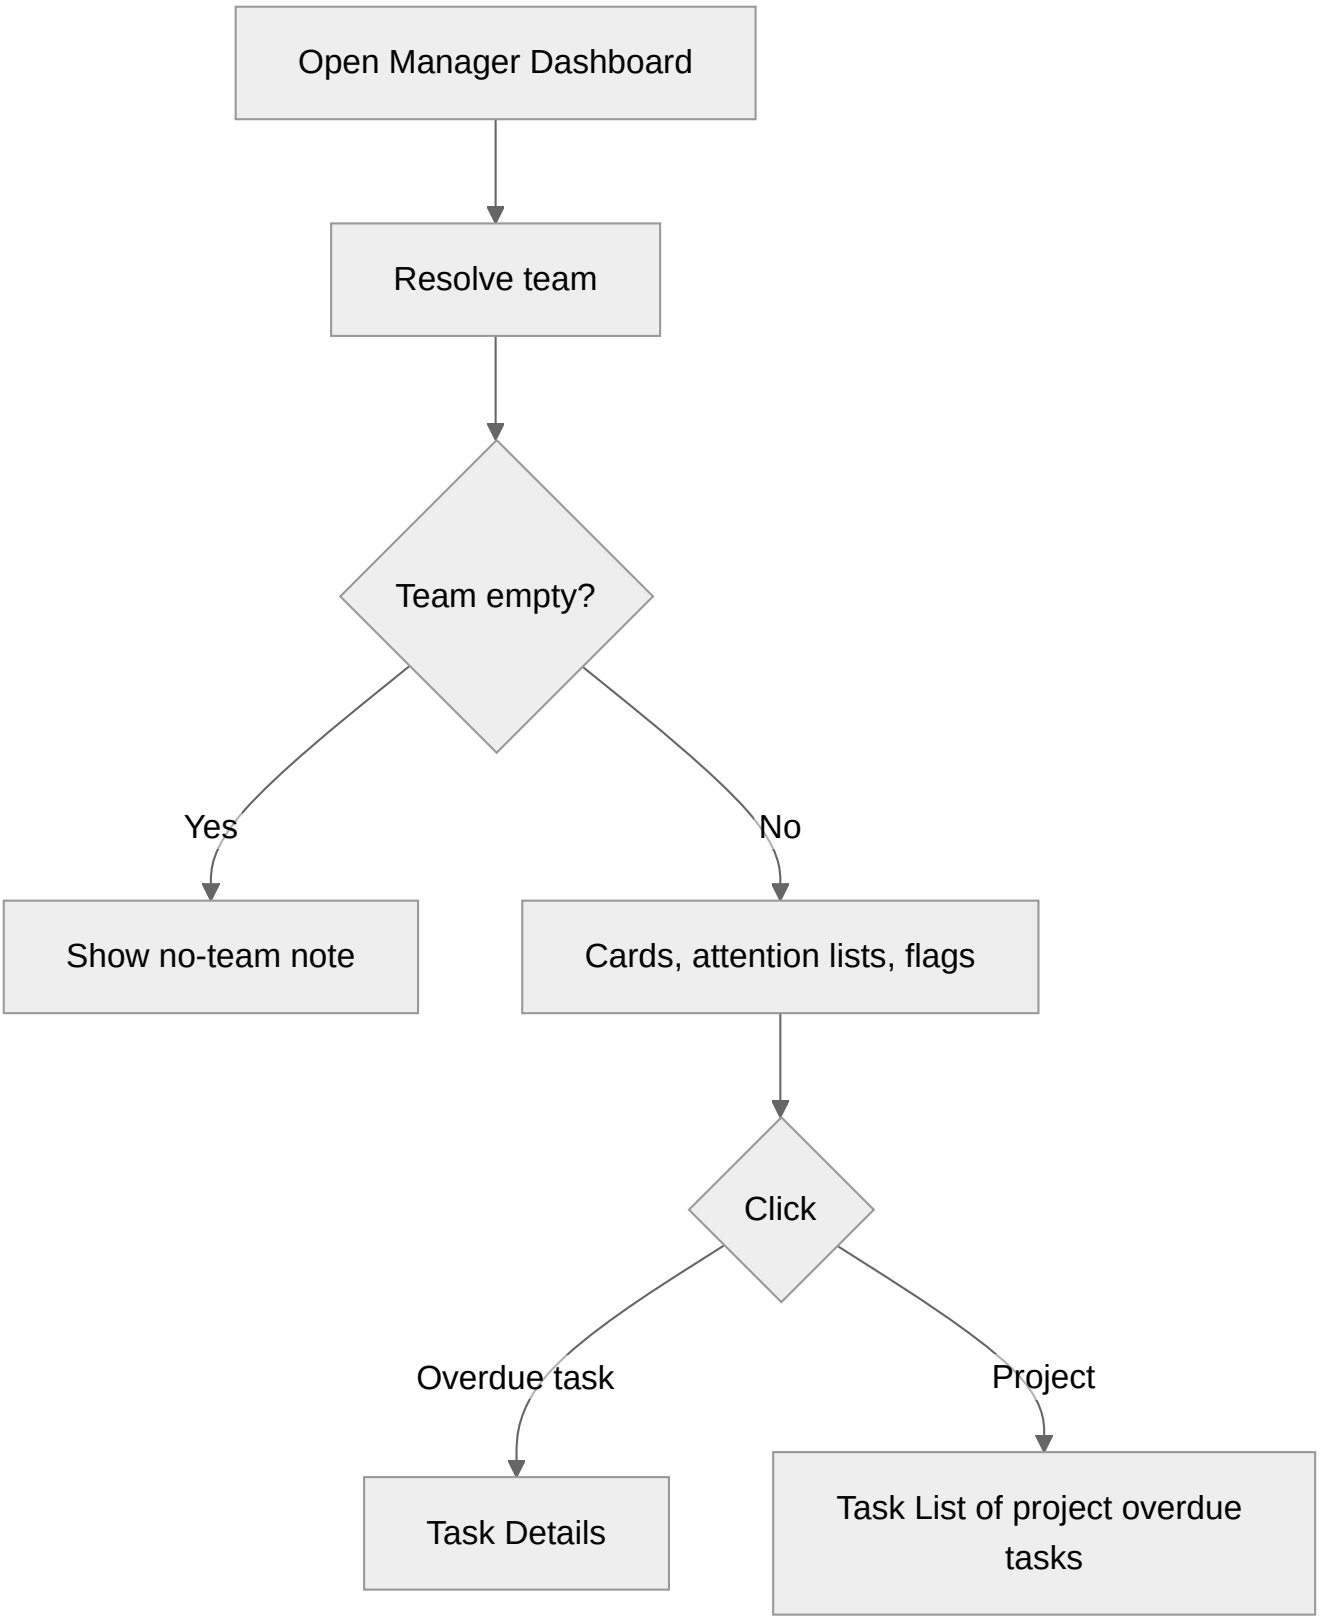

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Use case: UC-DASH-03 – Review team performance

Item	Detail
Actor	Manager
Preconditions	Signed in; holds `dashboard.view.team` and `dashboard.analytics.view`
Trigger	Opens the Manager Dashboard
Main flow	1. The system works out the team (FR-DASH-41). 2. The system shows the six team cards. 3. The system lists the most overdue tasks and the projects needing attention. 4. The system shows the workload table with flags. 5. The Manager clicks an overdue task → Task Details opens.
Alternate flows	A1: the Manager clicks a project in "Projects needing attention" → Task List with that project's overdue tasks. A2: the Manager filters by one employee → figures for that employee, flags compared with the whole team (FR-DASH-53).
Exceptions	E1: empty team → MSG-DASH-10 (Administrator: MSG-DASH-11). E2: employee or project outside scope → refused, MSG-DASH-01.
Postconditions	Delayed work and overloaded members are visible; no data is changed.

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Example (BRD §4.4): team of 6 with 27 open tasks (average 4.5); Arun has 9 open tasks (9 ≥ 5 and 9 ≥ 6.75) → **High workload**; one task 3 days overdue → **Overdue** flag and "3 days overdue" in "Most overdue tasks".

Field validations

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Field	Rule	Error message
From / To, Date basis, range	As on the Administrator Dashboard (4.1.2)	As in 4.1.2
Employee	Must be a team member (server check)	Screen shows "Could not load analytics. Check your connection and try again."
Project	Must be in the manager's scope (server check)	Screen shows "Could not load analytics. Check your connection and try again."

Business rules applied: BR-DASH-01 – BR-DASH-05, BR-DASH-09, BR-DASH-12; BR-06, BR-12.

Notifications / side effects: none (BR-DASH-11).

Messages

Situation	Message
Manager has no team (MSG-DASH-10)	"You have no team yet. Ask an administrator to assign departments or direct reports to you."
Administrator opens the Manager Dashboard without a team (MSG-DASH-11)	"This dashboard shows one manager's team. Organisation-wide figures are on the Administrator Dashboard."
Nothing overdue (MSG-DASH-12)	"Nothing is overdue for the team."
No team tasks match (MSG-DASH-13)	"No team tasks match these filters. Try a wider date range or reset the filters."
No team members to show (MSG-DASH-14)	"No team members to show. Ask an administrator to assign departments or direct reports to you."
Filter refused or load failed (MSG-DASH-01)	"Could not load analytics. Check your connection and try again."

4.1.4 Screen: Employee Dashboard

Field	Value
Route / location	`/me` (side menu → **Dashboard**)
Access	Every signed-in user (`dashboard.view.own` , Always On); figures need `dashboard.analytics.view`
Entry points	Sign-in (Employee and roles without a team or organisation key), **Dashboard** menu item, direct address

Screen elements

Element	Type	Description	Mandatory	Visible to
Header	Text	"Employee Dashboard", "Welcome back, *name*", subtitle "Your tasks, projects and progress · *period*"	–	All signed-in users
Period chips	Chip group	Last 7 days, Last 30 days (default), This month; note "Only your own data is shown."	–	Users with `dashboard.analytics.view`

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Element	Type	Description	Mandatory	Visible to
Summary cards	6 cards	My tasks, Completed, In progress, Pending, Overdue, Completion (%)	–	Users with `dashboard.analytics.view`
Overall task summary	Progress bar + 2 donuts	"*n* completed · *n* outstanding · *n*%", status and priority donuts	–	Users with `dashboard.analytics.view`
Upcoming deadlines & overdue	List (up to 10)	Task code, title, priority, deadline, badge; row opens Task Details	–	Users with `dashboard.analytics.view`
Personal performance	Line chart	Created vs completed per day for the period, "*n* completed in this period"	–	Users with `dashboard.analytics.view`
My projects	Progress list	Progress of the user's own tasks per project	–	Users with `dashboard.analytics.view`
Department overview	Aggregate panel	Task totals of the user's first department by name	–	Users with `dashboard.analytics.view`

Functional requirements

ID	Requirement	Priority	Permission	BRD trace
FR-DASH-59	The system shall show six summary cards: My tasks, Completed, In progress, Pending, Overdue and Completion (%), following FR-DASH-10 – FR-DASH-12, and MSG-DASH-15 when the user has no tasks.	Must	`dashboard.view.own` + `dashboard.analytics.view`	REQ-DASH-46
FR-DASH-60	The system shall show on the Employee Dashboard only tasks that belong to the signed-in user and shall not accept a request for another user's data.	Must	`dashboard.view.own`	REQ-DASH-47, BR-DASH-09, NFR-DASH-01
FR-DASH-61	The system shall show an overall task summary with a progress bar, "*n* completed · *n* outstanding · *n*%" and status and priority donuts covering all of the user's counted tasks.	Should	`dashboard.analytics.view`	REQ-DASH-48
FR-DASH-62	The system shall list up to 10 open tasks that are overdue or due within the next 7 days, soonest deadline first, and MSG-DASH-16 when there are none.	Must	`dashboard.analytics.view`	REQ-DASH-49
FR-DASH-63	The system shall show on each deadline row the task code, title, priority, deadline and a badge: "Due today", "Due tomorrow", "In *n* days", "Overdue" or "*n* days overdue".	Must	`dashboard.analytics.view`	REQ-DASH-50
FR-DASH-64	The system shall open Task Details (`/tasks/:id`) when a deadline row is clicked.	Must	`dashboard.analytics.view` (Task Details applies its own access)	REQ-DASH-51

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

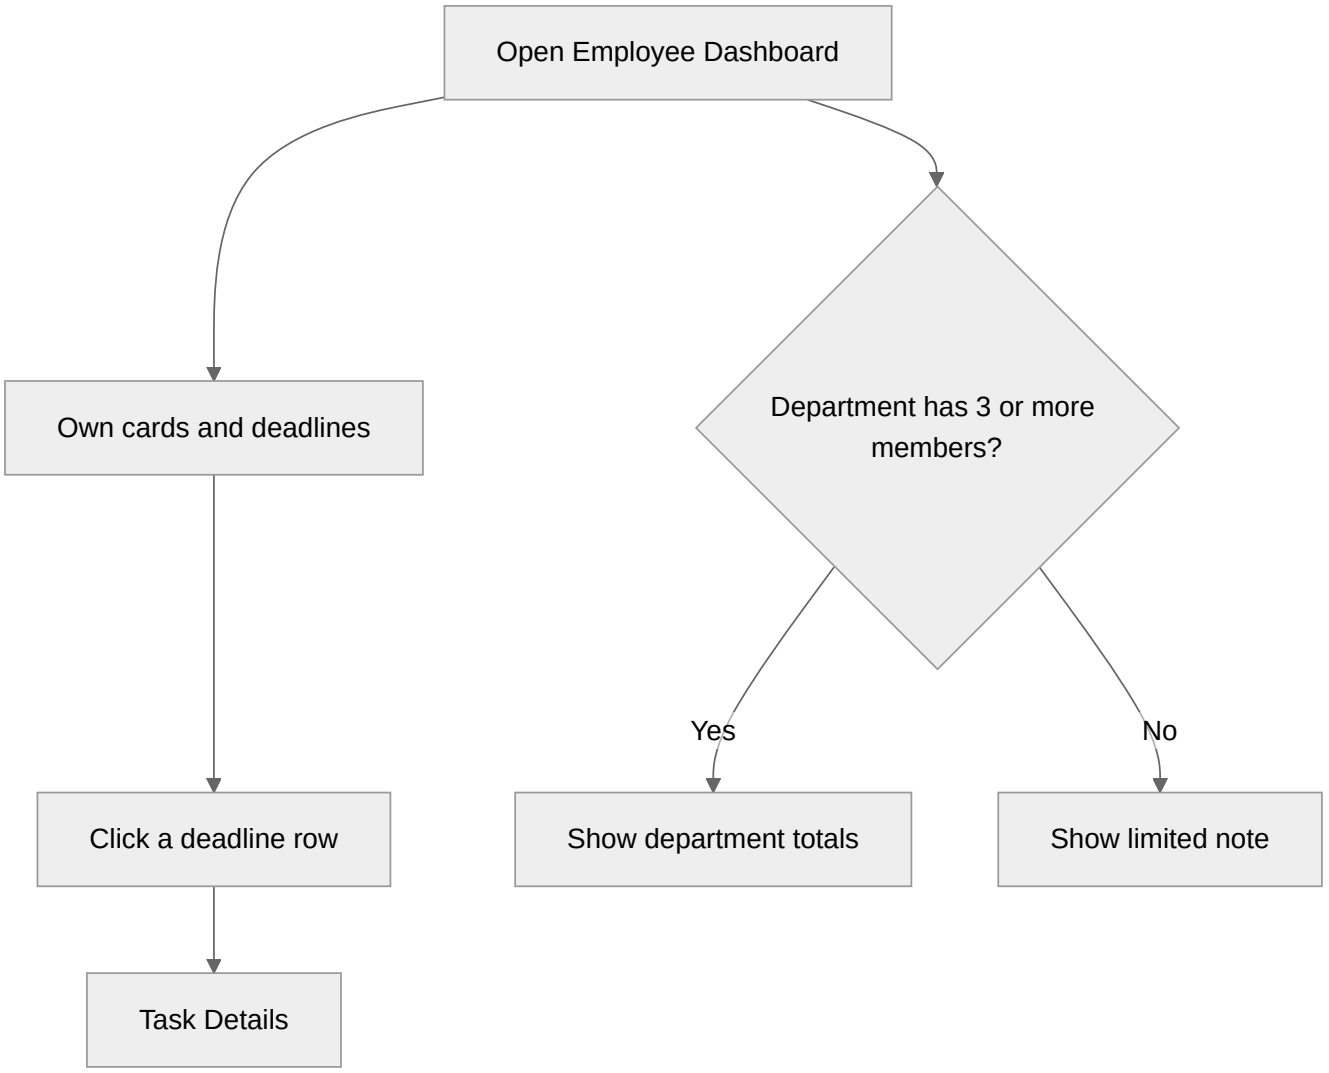

ID	Requirement	Priority	Permission	BRD trace
FR-DASH-65	The system shall offer the period chips Last 7 days, Last 30 days (default) and This month without requiring `dashboard.filters.use`, and refuse any other period value.	Should	`dashboard.analytics.view`	REQ-DASH-52, BR-DASH-08
FR-DASH-66	The system shall show a personal performance trend of the user's tasks created versus completed per day for the chosen period, with "*n* completed in this period", and MSG-DASH-17 when the trend is empty.	Should	`dashboard.analytics.view`	REQ-DASH-53
FR-DASH-67	The system shall apply the chosen period only to the personal performance trend and its completed count; cards, summary, deadlines, projects and department overview always cover all of the user's tasks.	Should	`dashboard.analytics.view`	REQ-DASH-54
FR-DASH-68	The system shall list under "My projects" the projects where the user has tasks or is allocated, with progress of the user's own tasks only, and MSG-DASH-18 when there are none.	Should	`dashboard.analytics.view`	REQ-DASH-55
FR-DASH-69	The system shall show a Department overview with aggregate task figures for the user's first department by name, and "No department assigned" when the user is in no department.	Should	`dashboard.analytics.view`	REQ-DASH-56
FR-DASH-70	The system shall never show a colleague's name or task in the Department overview.	Must	`dashboard.analytics.view`	REQ-DASH-57, BR-DASH-10
FR-DASH-71	The system shall show only MSG-DASH-19, and no figures, when the user's department has fewer than 3 active members.	Must	`dashboard.analytics.view`	REQ-DASH-58, BR-DASH-10, NFR-DASH-02

Use case: UC-DASH-04 – Check my deadlines and department

Item	Detail
Actor	Employee (any signed-in user)
Preconditions	Signed in; holds `dashboard.analytics.view`
Trigger	Opens the Employee Dashboard
Main flow	1. The system shows the own cards and overall summary. 2. The system lists up to 10 overdue or soon-due open tasks with badges. 3. The user clicks a row → Task Details opens. 4. The system shows the Department overview totals.
Alternate flows	A1: department has fewer than 3 active members → only MSG-DASH-19. A2: no department → "No department assigned".
Exceptions	E1: load fails → MSG-DASH-02 with **Retry**. E2: no tasks → MSG-DASH-15; nothing due → MSG-DASH-16.
Postconditions	The user knows which deadlines need attention; no colleague data is shown.

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

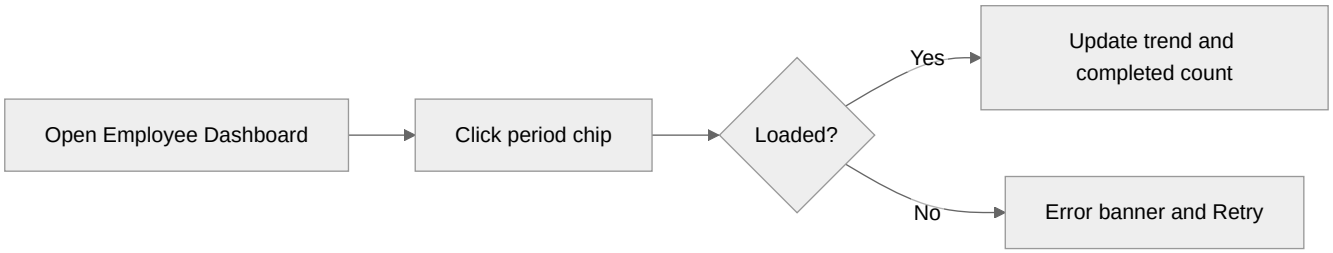

Example (BRD §4.5): on 31-Oct-2026 (Asia/Kolkata) Ravi sees TF-104 "Due today", TF-117 "Due tomorrow", TF-120 "In 3 days" and TF-098 "2 days overdue"; his department "Design" has 2 active members, so only MSG-DASH-19 is shown.

Use case: UC-DASH-05 – Change my period

Item	Detail
Actor	Employee (any signed-in user)
Preconditions	On the Employee Dashboard; holds `dashboard.analytics.view`
Trigger	Clicks **Last 7 days**, **Last 30 days** or **This month**
Main flow	1. The system reloads the personal performance trend for the period. 2. The system updates "*n* completed in this period" and the subtitle.
Alternate flows	A1: no task created or completed in the period → MSG-DASH-17.
Exceptions	E1: load fails → MSG-DASH-02 with **Retry**.
Postconditions	Only the trend and its count change (FR-DASH-67).

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Field validations

Field	Rule	Error message
Period	Last 7 days, Last 30 days or This month (server check)	Screen shows "Could not load your dashboard. Check your connection and try again."

Business rules applied: BR-DASH-01 – BR-DASH-05, BR-DASH-08 – BR-DASH-10; BR-06, BR-17.

Notifications / side effects: none (BR-DASH-11).

Messages

Situation	Message
No tasks (MSG-DASH-15)	"You have no tasks yet. New assignments will appear here."
No upcoming deadlines (MSG-DASH-16)	"Nothing is due in the next 7 days."
Empty personal trend (MSG-DASH-17)	"You created or completed no tasks in this period."
No projects (MSG-DASH-18)	"You have no projects yet."
Small department (MSG-DASH-19)	"Departments with fewer than 3 members do not show task figures."
Not in any department	"No department assigned"
Load failed (MSG-DASH-02)	"Could not load your dashboard. Check your connection and try again."

4.1.5 Function: Drill-down from a chart (all dashboards)

Field	Value
Route / location	From any dashboard to the Task List `/tasks` with the drill-down filter
Access	Users with `dashboard.analytics.view`; the Task List applies `tasks.view.own` / `tasks.view.all` and its own access rules
Entry points	Donut slice, bar segment, deadline bar, trend point, project row, manager count

Screen elements (Task List side)

Element	Type	Description	Mandatory	Visible to
Drill-down banner	Status banner	"Opened from the dashboard: *summary*"	–	Users who arrive from a chart
Show all tasks	Button	Removes the drill-down filter	–	Users who arrive from a chart

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Functional requirements

ID	Requirement	Priority	Permission	BRD trace
FR-DASH-72	The system shall make every chart part (donut slice, bar segment, deadline bar, trend point, project, manager count) clickable and open the Task List with the dashboard's current filters plus the clicked part (for example bucket "Overdue", priority "High", a department).	Must	`dashboard.analytics.view`	REQ-DASH-26
FR-DASH-73	The system shall show on the Task List the banner "Opened from the dashboard: *summary*" with a **Show all tasks** button that removes the drill-down filter.	Must	`tasks.view.own`	REQ-DASH-26
FR-DASH-74	The system shall apply in the drill-down the same bucket, ownership, scope and timezone rules as the chart, so that the Task List shows exactly the tasks the chart part counted.	Must	`dashboard.analytics.view`	REQ-DASH-27, BR-DASH-12, BR-22, NFR-DASH-03
FR-DASH-75	The system shall limit the drill-down result again to the tasks the user may open in the Task List.	Must	`tasks.view.own` / `tasks.view.all`	REQ-DASH-27

Use case: UC-DASH-06 – Drill down from a chart

Item	Detail
Actor	Any signed-in user
Preconditions	A dashboard is shown with figures; holds `dashboard.analytics.view`
Trigger	Clicks a chart part
Main flow	1. The system builds a Task List filter from the dashboard filters and the clicked part. 2. The Task List opens with the drill-down banner. 3. The Task List shows the matching tasks within the user's task access.
Alternate flows	A1: the user clicks **Show all tasks** → the normal Task List is shown.
Exceptions	E1: the user's task access is narrower than the dashboard scope → only the tasks the user may open are shown.
Postconditions	The listed tasks equal the chart count for the same user (NFR-DASH-03).

Example (BRD §4.3): the "Overdue" slice of the Manager's status donut shows 4; clicking it lists the same 4 team tasks.

Field validations: *Not applicable – no input.*

Business rules applied: BR-DASH-02, BR-DASH-12; BR-22.

Notifications / side effects: none (BR-DASH-11).

Situation	Message
Drill-down applied	"Opened from the dashboard: *summary*"

5. Cross-Module Workflows

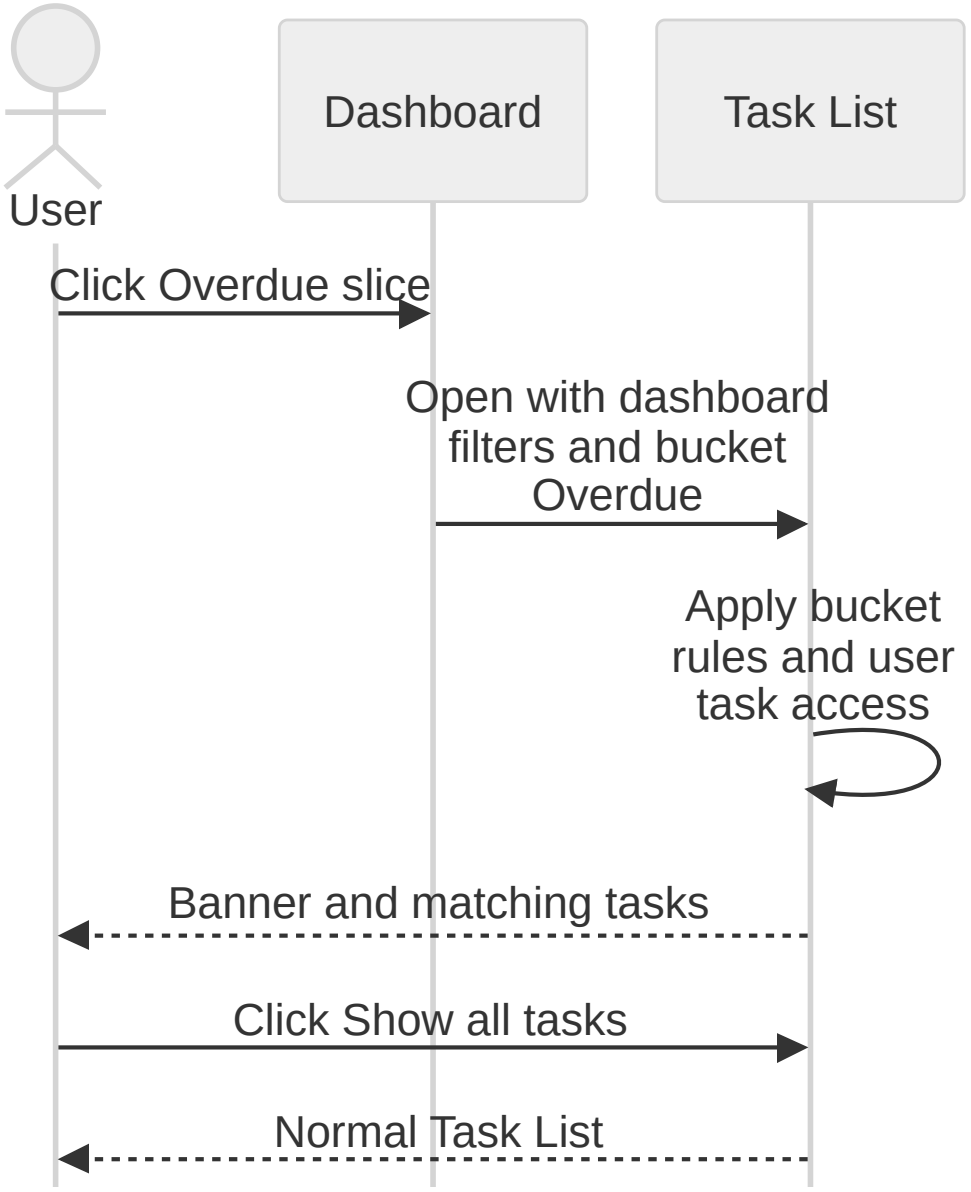

5.1 Sign-in to dashboard

Step	Module	Actor / System	Action	FR reference
1	AUTH	User	Signs in (and completes Security Setup if required)	Overall FRD (FR-AUTH)
2	DASH	System	Picks the dashboard by role and permission	FR-DASH-01, FR-DASH-02
3	DASH	System	Loads cards and charts in the user's scope, using the application timezone	FR-DASH-08, FR-DASH-14
4	APP	System	Supplies the application timezone that decides "today"	FR-DASH-14

5.2 Dashboard drill-down to the Task List

Step	Module	Actor / System	Action	FR reference
1	DASH	User	Clicks a chart part	FR-DASH-72
2	TASK	System	Opens the Task List with the drill-down filter and banner	FR-DASH-73
3	TASK	System	Applies the same bucket rules and the user's task access	FR-DASH-74, FR-DASH-75
4	TASK	User	Opens a task (Task Details)	FR-DASH-46, FR-DASH-64

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

6. Reports & Exports

Report	Module	Filters	Columns	Export	Access
Administrator Dashboard analytics	DASH	Date preset / From–To, date basis, department, project, manager, employee	10 cards; status, priority, trend, deadlines, department, employee, manager, project sections	None (screen)	`dashboard.view.organization` + `dashboard.analytics.view` (filters: `dashboard.filters.use`)
Manager Dashboard analytics	DASH	Date preset / From–To, date basis, project, employee (team only)	6 cards; attention lists; donuts; project progress; workload table	None (screen)	`dashboard.view.team` + `dashboard.analytics.view` (filters: `dashboard.filters.use`)

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Report	Module	Filters	Columns	Export	Access
Employee Dashboard analytics	DASH	Period (Last 7 days, Last 30 days, This month)	6 cards; summary; deadlines; trend; my projects; department overview	None (screen)	`dashboard.view.own` + `dashboard.analytics.view`

File export is provided by the Reports sub-module (`../../05-Reports/05.1-Reports/FRD-Reports.md`).

7. Notifications & Messages Catalogue

The Dashboard sends no notification or mail (BR-DASH-11). On-screen messages:

Code	Trigger	Recipients	Channel	Text
MSG-DASH-01	Administrator / Manager dashboard load failed or filter refused	Current user	On screen (banner + **Retry**)	"Could not load analytics. Check your connection and try again."
MSG-DASH-02	Employee dashboard load failed	Current user	On screen (banner + **Retry**)	"Could not load your dashboard. Check your connection and try again."
MSG-DASH-03	No task matches (Administrator)	Current user	On screen	"No tasks match these filters. Try a wider date range or reset the filters."
MSG-DASH-04	Empty chart	Current user	On screen	"No tasks match these filters."
MSG-DASH-05	Empty completion trend	Current user	On screen	"No tasks were created or completed in this period."
MSG-DASH-06	No projects (Administrator / Manager)	Current user	On screen	"No projects match these filters."
MSG-DASH-07	No managers	Current user	On screen	"No managers match these filters."
MSG-DASH-08	A filter date missing	Current user	On screen	"Choose both a start and an end date."
MSG-DASH-09	End date before start date	Current user	On screen	"The end date cannot be before the start date."
MSG-DASH-10	Manager has no team	Current user	On screen	"You have no team yet. Ask an administrator to assign departments or direct reports to you."
MSG-DASH-11	Administrator opens the Manager Dashboard without a team	Current user	On screen	"This dashboard shows one manager's team. Organisation-wide figures are on the Administrator Dashboard."

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Code	Trigger	Recipients	Channel	Text
MSG-DASH-12	Nothing overdue for the team	Current user	On screen	"Nothing is overdue for the team."
MSG-DASH-13	No team tasks match	Current user	On screen	"No team tasks match these filters. Try a wider date range or reset the filters."
MSG-DASH-14	No team members to show	Current user	On screen	"No team members to show. Ask an administrator to assign departments or direct reports to you."
MSG-DASH-15	Employee has no tasks	Current user	On screen	"You have no tasks yet. New assignments will appear here."
MSG-DASH-16	Nothing due in the next 7 days	Current user	On screen	"Nothing is due in the next 7 days."
MSG-DASH-17	Empty personal trend	Current user	On screen	"You created or completed no tasks in this period."
MSG-DASH-18	Employee has no projects	Current user	On screen	"You have no projects yet."
MSG-DASH-19	Department with fewer than 3 active members	Current user	On screen	"Departments with fewer than 3 members do not show task figures."

8. Data Requirements (functional view)

The Dashboard stores no data of its own; it reads:

Data item	Description	Created by	Rules
Task status, priority, deadline, created / completed dates	Basis of every bucket and chart	Task Management	Deleted and cancelled tasks are not counted (FR-DASH-10)
Task assignee and recipients	Ownership for Manager and Employee figures	Task Management	Assignee or recipient = owner (FR-DASH-13)
Users (name, role, active status)	Employees / Managers cards, team members	Employee Management	Only active users count on the Employees card and in teams
Departments, department manager, members	Department-wise figures, team, department overview	Department Management	Department overview needs 3 or more active members
Projects, allocations, project-manager flag	Project figures, manager scope, My projects	Project Management	Projected end = latest task deadline
Application timezone	"Today" and day windows	Application Settings	Default Asia/Kolkata

9. Non-Functional Requirements (functional impact)

ID	Requirement	Affects
NFR-DASH-01	Dashboard scope is enforced by the server, not only by hiding screens (FR-DASH-06, FR-DASH-56, FR-DASH-60)	All dashboards

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

ID	Requirement	Affects
NFR-DASH-02	No department figures below 3 active members (FR-DASH-71)	Employee Dashboard
NFR-DASH-03	Drill-down count equals chart count for the same user (FR-DASH-74)	All dashboards, Task List
NFR-DASH-04	Every empty or failed section shows a plain-language message and a recovery action (§7, **Retry**)	All dashboards
NFR-DASH-05	The dashboard returns aggregated figures, not lists of all tasks. > ⚠️ To be confirmed: a measured load-time target.	All dashboards
NFR-DASH-06	Filter ranges stay bounded: shorter than 3660 days; top 10 employees by default (FR-DASH-25, FR-DASH-37)	Administrator, Manager dashboards

Global NFRs of the overall BRD / FRD apply.

10. Assumptions & Open Issues

Type	Description	Owner
Assumption	A user may be in zero or more departments; the Department overview uses the first by name (FR-DASH-69).	Jojo George
Assumption	A manager's team comes from departments the manager runs and projects where the manager is flagged project manager; no separate "direct reports" relation exists.	Jojo George
Assumption	Thresholds are fixed, not configurable: default 30 days, maximum range 3660 days, daily trend up to 31 days, top 10, lists of 5 and 10, 7-day window, High workload 5 and 1.5 ×, department minimum 3.	Jojo George
Assumption	The test suites in §11 are named from the project's test file list; individual test cases are not listed.	Jojo George
Open issue	> ⚠️ To be confirmed: a role without `dashboard.analytics.view` sees only the generic load-error banner instead of a "no permission" message (R-DASH-01).	Jojo George
Open issue	> ⚠️ To be confirmed: the server's specific filter messages ("The date range is too long.", "The employee is outside your team.", "The project is outside your scope.") are not shown; the screen shows MSG-DASH-01 (R-DASH-02).	Jojo George
Open issue	> ⚠️ To be confirmed: the single team definition shared by the Manager Dashboard, the Administrator's Manager filter and "Manager-wise teams" (R-DASH-03).	Jojo George
Open issue	> ⚠️ To be confirmed: one completion rule for the Administrator trend (counts tasks completed in the range even if later reopened) and the Employee trend (counts only tasks still completed) (R-DASH-04).	Jojo George
Open issue	> ⚠️ To be confirmed: simple counter endpoints for the three dashboards exist but no screen uses them.	Jojo George
Open issue	> ⚠️ To be confirmed: a measured performance target (NFR-DASH-05).	Jojo George
