1. Module-wise summary

Module	Sub-modules	Total	Always On	Granted	Not granted
Dashboard	Dashboard	5	1	4	0
TaskFlow Monitoring	Task Management, Employee Workload, Board	17	1	16	0
TaskFlow Management	Employee Management, Project Management, Department Management	18	0	18	0
Communication Management	Mail, Notification	6	0	6	0
Report	Reports	2	0	2	0
Settings	Reminder Settings, Application Settings, TFA Settings, Role Configuration	10	0	10	0
My Profile	My profile	4	4	0	0
TFA assistant	Assistant	2	0	2	0
Total		**64**	**6**	**58**	**0**

Legend

Always On	Every user has it; it cannot be switched off.
Granted	Held by the role by default.
Not granted	Not held by default.
Configurable	Custom roles: decided by an Administrator in Role Configuration.
Not assignable	Only the Administrator role can hold it.

2. Module › Sub-module-wise permissions

Dashboard

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
Dashboard › Dashboard								
1	Overview	Employee Dashboard `/me`	`dashboard.view.own`	View my dashboard	Personal task summary, deadlines, performance and projects.	View	Always On	Dashboard scope – level 1
2	Overview	Manager Dashboard `/manager`	`dashboard.view.team`	View team dashboard	Task statistics and team performance for the people the user manages.	View	Granted	Dashboard scope – level 2 (includes lower levels)
3	Overview	Admin Dashboard `/admin`	`dashboard.view.organization`	View organization dashboard	Task, department, project and employee statistics for the whole organization.	View	Granted	Dashboard scope – level 3 (includes lower levels)
4	Analytics	Admin / Manager / Employee Dashboard `/admin, /manager, /me`	`dashboard.analytics.view`	View charts and reports	Open the charts and analytics: status, trend, deadlines, workload and progress.	Access	Granted	
5	Analytics	Admin / Manager / Employee Dashboard `/admin, /manager, /me`	`dashboard.filters.use`	Use dashboard filters	Filter dashboard analytics by department, project, employee and period.	Use	Granted	

TaskFlow Monitoring

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
TaskFlow Monitoring › Task Management								
6	Task list	Task List, Kanban Board, Task Details `/tasks, /board, /tasks/:id`	`tasks.view.own`	View my tasks	See tasks the user created or is assigned to, on the list, board and details screens.	View	Always On	Task scope – level 1
7	Task list	Task List, Kanban Board, Task Details `/tasks, /board, /tasks/:id`	`tasks.view.all`	View all tasks	See every task in the organization. Without it a user sees only tasks they created or are assigned to.	View	Granted	Task scope – level 2 (includes lower levels)
8	Task list	Task List, Create Task `/tasks, /tasks/new`	`tasks.create`	Create tasks	Create tasks, or copy an existing one, and assign them.	Create	Granted	
9	Task list	Task List `/tasks`	`tasks.delete`	Delete tasks	Delete a task from the list or the details screen.	Delete	Granted	
10	Details	Task Details `/tasks/:id`	`tasks.update`	Edit tasks	Change the title, description, priority, deadline, reminders and other details of a task.	Edit	Granted	
11	Details	Task Reassignment `/tasks/:id/reassign`	`tasks.reassign`	Reassign tasks	Move a task to another assignee.	Assign	Granted	
12	Details	Task Details `/tasks/:id`	`tasks.recipients.manage`	Manage task recipients	Choose who is notified about a task.	Assign	Granted	
13	Discussion	Task Discussion (comments) `/tasks/:id/discussion`	`tasks.comment.create`	Post task comments	Write comments in a task's discussion.	Create	Granted	

© 2026 Jojo George. All rights reserved.

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
14	Discussion	Task Discussion (comments) `/tasks/:id/discussion`	`tasks.comment.edit`	Edit own task comments	Change the text of a comment you wrote in a task's discussion.	Edit	Granted	
15	Discussion	Task Discussion (comments) `/tasks/:id/discussion`	`tasks.comment.delete`	Delete own task comments	Delete a comment you wrote in a task's discussion.	Delete	Granted	
16	Activity	Task Activity History `/tasks/:id/activity`	`tasks.activity.view`	View task history	Open a task's activity history.	View	Granted	
TaskFlow Monitoring › Employee Workload								
17		Employee Workload `/workload`	`workload.view`	View workload	Open the team workload view.	View	Granted	
18		Employee Workload `/workload`	`workload.filters.use`	Use workload filters	Filter the workload table by project and employee.	Use	Granted	Requires workload.view
19		Employee Workload `/workload`	`workload.tasks.open`	Open an employee's tasks	Follow the link from a workload row to that employee's task list. Task visibility still follows the user's task scope.	Access	Granted	Requires workload.view
TaskFlow Monitoring › Board								
20		Kanban Board `/board`	`board.view`	View board	Open the task board and see the tasks the user's task scope allows.	View	Granted	
21		Kanban Board `/board`	`board.filters.use`	Use board filters	Filter the board by project, assignee, status and deadline.	Use	Granted	Requires board.view
22		Kanban Board, Task Details `/board, /tasks/:id`	`tasks.status.change`	Update task status	Move a task between statuses, on the board or the details screen.	Edit	Granted	

TaskFlow Management

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
TaskFlow Management › Employee Management								
23	Employee list	Employee Management `/employees`	`employees.view`	View employees	See the employee list and employee details.	View	Granted	
24	Employee list	Employee Management `/employees`	`employees.create`	Create employees	Add an employee.	Create	Granted	Requires employees.view
25	Employee list	Employee Management `/employees`	`employees.edit`	Edit employees	Change an employee's details.	Edit	Granted	Requires employees.view
26	Employee list	Employee Management `/employees`	`employees.status.change`	Activate or deactivate employees	Switch an employee account on or off.	Edit	Granted	Requires employees.view
27	Employee list	Employee Management `/employees`	`employees.role.assign`	Assign roles	Change which role an employee holds.	Assign	Granted	Requires employees.view
28	Employee list	Employee Management (employee details) `/employees`	`employees.mfa.reset`	Reset two-step verification	Reset an employee's authenticator setup.	Manage	Granted	Requires employees.view
29	Employee list	Employee Management `/employees`	`employees.delete`	Delete employees	Permanently remove an employee account.	Delete	Granted	Requires employees.view
TaskFlow Management › Project Management								

© 2026 Jojo George. All rights reserved.

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
30	Project list	Project Management `/projects, /projects/:id`	`projects.view`	View projects	See projects, their members and their tasks.	View	Granted	
31	Project list	Project Management `/projects, /projects/:id`	`projects.create`	Create projects	Create a project.	Create	Granted	Requires projects.view
32	Details	Project Details `/projects/:id`	`projects.edit`	Edit projects	Rename a project and change its details.	Edit	Granted	Requires projects.view
33	Project list	Project Management `/projects, /projects/:id`	`projects.delete`	Delete projects	Delete a project.	Delete	Granted	Requires projects.view
34	Members	Project Management (team dialog), Project Details `/projects, /projects/:id`	`projects.members.manage`	Manage project members	Add and remove the people in a project.	Assign	Granted	Requires projects.view
35	Members	Project Management `/projects, /projects/:id`	`positions.create`	Create positions	Add a job position used when allocating people to projects.	Create	Granted	Requires projects.view
TaskFlow Management › Department Management								
36	Department list	Department Management `/departments`	`departments.view`	View departments	See departments and the managers and employees in them.	View	Granted	
37	Department list	Department Management `/departments`	`departments.create`	Create departments	Create a department.	Create	Granted	Requires departments.view
38	Department list	Department Management `/departments`	`departments.edit`	Edit departments	Rename a department and change its details.	Edit	Granted	Requires departments.view
39	Department list	Department Management `/departments`	`departments.delete`	Delete departments	Delete a department.	Delete	Granted	Requires departments.view
40	Members	Department Management `/departments`	`departments.members.manage`	Manage department members	Choose the managers and employees in a department.	Assign	Granted	Requires departments.view

Communication Management

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
Communication Management › Mail								
41	Mailbox	Mail `/mail`	`mail.read`	Read mail	Open the inbox, folders and messages.	View	Granted	
42	Mailbox	Mail `/mail`	`mail.compose`	Write and send mail	Compose, save drafts, reply and forward.	Create	Granted	
43	Mailbox	Mail `/mail`	`mail.organize`	Organize mail	Star, mark important, move to trash, restore and delete.	Edit	Granted	
44	Mailbox	Mail `/mail`	`mail.attachments`	Use mail attachments	Upload and download attachments.	Use	Granted	
Communication Management › Notification								
45	Notification centre	Notification Center `/notifications`	`notifications.view`	View notifications	Open the notification centre.	View	Granted	
46	Notification centre	Notification Center `/notifications`	`notifications.manage`	Mark notifications read	Mark one or all notifications as read.	Edit	Granted

Report

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
Report › Reports								
47		Reports `/reports`	`reports.view`	View reports	Open task reports and filter them.	View	Granted	
48		Reports `/reports`	`reports.export`	Export reports	Download a report as a file.	Export	Granted	Requires reports.view

Settings

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
Settings › Reminder Settings								
49		Reminder Settings `/settings/reminders`	`settings.reminders.manage`	Reminder settings	View and change deadline reminder settings.	Manage	Granted	
Settings › Application Settings								
50		Application Settings `/settings/application`	`settings.application.manage`	Application settings	Change application-wide settings.	Manage	Granted	
Settings › TFA Settings								
51	AI providers	TFA Settings `/settings/tfa`	`settings.ai.view`	View AI provider settings	See which AI providers and models are configured.	View	Granted	
52	AI providers	TFA Settings `/settings/tfa`	`settings.ai.edit`	Edit AI provider settings	Configure AI providers, keys and models.	Edit	Granted	Requires settings.ai.view
53	AI providers	TFA Settings `/settings/tfa`	`settings.ai.test`	Test AI providers	Run a connection test against a provider.	Use	Granted	Requires settings.ai.view
54	AI providers	TFA Settings `/settings/tfa`	`settings.ai.model.remove`	Remove AI models	Remove a configured model from a provider.	Delete	Granted	Requires settings.ai.view
Settings › Role Configuration								
55		Role Configuration `/settings/permissions`	`roles.manage`	Manage roles and permissions	Open Role Configuration and create, edit and delete custom roles. Whoever holds it can also tick or untick it, and Assign roles, on custom roles.	Manage	Granted	
56		Role Configuration `/settings/permissions`	`roles.view.all`	View all roles	If ticked, the logged user can see all roles. If unticked, they can only see their own permissions.	View	Granted	
57		Role Configuration `/settings/permissions`	`roles.modify.access`	Modify access	If ticked, the logged user can add or update permissions. If unticked, all permissions are in view mode.	Edit	Granted	
58		Role Configuration `/settings/permissions`	`roles.administrator.assign`	Give the Administrator role	Make an account an Administrator, or take the role away. Only the Administrator role holds it.	Assign	Granted	Administrator only

My Profile

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
My Profile › My profile								

© 2026 Jojo George. All rights reserved.

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
59	Account	My Profile `/profile`	`profile.view`	View my profile	Open the user's own profile.	View	Always On	
60	Personal information	My Profile `/profile`	`profile.edit`	Edit my personal information	Update the user's own contact details.	Edit	Always On	
61	Security	Change Password `/profile/change-password`	`profile.password.change`	Change my password	Change the user's own password.	Edit	Always On	
62	Security	Security Setup, My Profile `/security-setup, /profile`	`profile.mfa.manage`	Manage my authenticator	Set up two-step verification and regenerate backup codes.	Manage	Always On	

TFA assistant

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
TFA assistant › Assistant								
63		TFA Assistant panel (all signed-in screens) `TFA button / "Hey TF assistant"`	`assistant.chat`	Chat with the assistant	Ask the AI assistant questions and start new conversations.	Use	Granted	
64		TFA Assistant panel (all signed-in screens) `TFA button / "Hey TF assistant"`	`assistant.actions.confirm`	Confirm assistant actions	Approve or cancel actions the assistant proposes. The assistant can only do what the user's own permissions allow.	Use	Granted

3. Screen-wise permissions

Screen	Route	Module › Sub-module	Permissions held
Admin / Manager / Employee Dashboard	`/admin, /manager, /me`	Dashboard › Dashboard	`dashboard.analytics.view` – View charts and reports `dashboard.filters.use` – Use dashboard filters
Admin Dashboard	`/admin`	Dashboard › Dashboard	`dashboard.view.organization` – View organization dashboard
Application Settings	`/settings/application`	Settings › Application Settings	`settings.application.manage` – Application settings
Change Password	`/profile/change-password`	My Profile › My profile	`profile.password.change` – Change my password
Department Management	`/departments`	TaskFlow Management › Department Management	`departments.view` – View departments `departments.create` – Create departments `departments.edit` – Edit departments `departments.delete` – Delete departments `departments.members.manage` – Manage department members
Employee Dashboard	`/me`	Dashboard › Dashboard	`dashboard.view.own` – View my dashboard
Employee Management	`/employees`	TaskFlow Management › Employee Management	`employees.view` – View employees `employees.create` – Create employees `employees.edit` – Edit employees `employees.status.change` – Activate or deactivate employees `employees.role.assign` – Assign roles `employees.delete` – Delete employees
Employee Management (employee details)	`/employees`	TaskFlow Management › Employee Management	`employees.mfa.reset` – Reset two-step verification
Employee Workload	`/workload`	TaskFlow Monitoring › Employee Workload	`workload.view` – View workload `workload.filters.use` – Use workload filters `workload.tasks.open` – Open an employee's tasks
Kanban Board	`/board`	TaskFlow Monitoring › Board	`board.view` – View board `board.filters.use` – Use board filters
Kanban Board, Task Details	`/board, /tasks/:id`	TaskFlow Monitoring › Board	`tasks.status.change` – Update task status
Mail	`/mail`	Communication Management › Mail	`mail.read` – Read mail `mail.compose` – Write and send mail `mail.organize` – Organize mail `mail.attachments` – Use mail attachments
Manager Dashboard	`/manager`	Dashboard › Dashboard	`dashboard.view.team` – View team dashboard
My Profile	`/profile`	My Profile › My profile	`profile.view` – View my profile `profile.edit` – Edit my personal information
Notification Center	`/notifications`	Communication Management › Notification	`notifications.view` – View notifications `notifications.manage` – Mark notifications read
Project Details	`/projects/:id`	TaskFlow Management › Project Management	`projects.edit` – Edit projects

© 2026 Jojo George. All rights reserved.

Screen	Route	Module › Sub-module	Permissions held
Project Management	`/projects, /projects/:id`	TaskFlow Management › Project Management	`projects.view` – View projects `projects.create` – Create projects `projects.delete` – Delete projects `positions.create` – Create positions
Project Management (team dialog), Project Details	`/projects, /projects/:id`	TaskFlow Management › Project Management	`projects.members.manage` – Manage project members
Reminder Settings	`/settings/reminders`	Settings › Reminder Settings	`settings.reminders.manage` – Reminder settings
Reports	`/reports`	Report › Reports	`reports.view` – View reports `reports.export` – Export reports
Role Configuration	`/settings/permissions`	Settings › Role Configuration	`roles.manage` – Manage roles and permissions `roles.view.all` – View all roles `roles.modify.access` – Modify access `roles.administrator.assign` – Give the Administrator role
Security Setup, My Profile	`/security-setup, /profile`	My Profile › My profile	`profile.mfa.manage` – Manage my authenticator
TFA Assistant panel (all signed-in screens)	`TFA button / "Hey TF assistant"`	TFA assistant › Assistant	`assistant.chat` – Chat with the assistant `assistant.actions.confirm` – Confirm assistant actions
TFA Settings	`/settings/tfa`	Settings › TFA Settings	`settings.ai.view` – View AI provider settings `settings.ai.edit` – Edit AI provider settings `settings.ai.test` – Test AI providers `settings.ai.model.remove` – Remove AI models
Task Activity History	`/tasks/:id/activity`	TaskFlow Monitoring › Task Management	`tasks.activity.view` – View task history
Task Details	`/tasks/:id`	TaskFlow Monitoring › Task Management	`tasks.update` – Edit tasks `tasks.recipients.manage` – Manage task recipients
Task Discussion (comments)	`/tasks/:id/discussion`	TaskFlow Monitoring › Task Management	`tasks.comment.create` – Post task comments `tasks.comment.edit` – Edit own task comments `tasks.comment.delete` – Delete own task comments
Task List	`/tasks`	TaskFlow Monitoring › Task Management	`tasks.delete` – Delete tasks
Task List, Create Task	`/tasks, /tasks/new`	TaskFlow Monitoring › Task Management	`tasks.create` – Create tasks
Task List, Kanban Board, Task Details	`/tasks, /board, /tasks/:id`	TaskFlow Monitoring › Task Management	`tasks.view.own` – View my tasks `tasks.view.all` – View all tasks
Task Reassignment	`/tasks/:id/reassign`	TaskFlow Monitoring › Task Management	`tasks.reassign` – Reassign tasks
