2. Module › Sub-module-wise permissions

Dashboard

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
Dashboard › Dashboard								
1	Overview	Employee Dashboard `/me`	`dashboard.view.own`	View my dashboard	Personal task summary, deadlines, performance and projects.	View	Always On	Dashboard scope – level 1
2	Analytics	Admin / Manager / Employee Dashboard `/admin, /manager, /me`	`dashboard.analytics.view`	View charts and reports	Open the charts and analytics: status, trend, deadlines, workload and progress.	Access	Granted	
3	Analytics	Admin / Manager / Employee Dashboard `/admin, /manager, /me`	`dashboard.filters.use`	Use dashboard filters	Filter dashboard analytics by department, project, employee and period.	Use	Granted	

TaskFlow Monitoring

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
TaskFlow Monitoring › Task Management								
4	Task list	Task List, Kanban Board, Task Details `/tasks, /board, /tasks/:id`	`tasks.view.own`	View my tasks	See tasks the user created or is assigned to, on the list, board and details screens.	View	Always On	Task scope – level 1
5	Discussion	Task Discussion (comments) `/tasks/:id/discussion`	`tasks.comment.create`	Post task comments	Write comments in a task's discussion.	Create	Granted	
6	Discussion	Task Discussion (comments) `/tasks/:id/discussion`	`tasks.comment.edit`	Edit own task comments	Change the text of a comment you wrote in a task's discussion.	Edit	Granted	
7	Discussion	Task Discussion (comments) `/tasks/:id/discussion`	`tasks.comment.delete`	Delete own task comments	Delete a comment you wrote in a task's discussion.	Delete	Granted	
8	Activity	Task Activity History `/tasks/:id/activity`	`tasks.activity.view`	View task history	Open a task's activity history.	View	Granted	
TaskFlow Monitoring › Board								
9		Kanban Board `/board`	`board.view`	View board	Open the task board and see the tasks the user's task scope allows.	View	Granted	
10		Kanban Board `/board`	`board.filters.use`	Use board filters	Filter the board by project, assignee, status and deadline.	Use	Granted	Requires board.view
11		Kanban Board, Task Details `/board, /tasks/:id`	`tasks.status.change`	Update task status	Move a task between statuses, on the board or the details screen.	Edit	Granted	

Communication Management

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
Communication Management › Mail								
12	Mailbox	Mail `/mail`	`mail.read`	Read mail	Open the inbox, folders and messages.	View	Granted	

© 2026 Jojo George. All rights reserved.

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
13	Mailbox	Mail `/mail`	`mail.compose`	Write and send mail	Compose, save drafts, reply and forward.	Create	Granted	
14	Mailbox	Mail `/mail`	`mail.organize`	Organize mail	Star, mark important, move to trash, restore and delete.	Edit	Granted	
15	Mailbox	Mail `/mail`	`mail.attachments`	Use mail attachments	Upload and download attachments.	Use	Granted	
Communication Management › Notification								
16	Notification centre	Notification Center `/notifications`	`notifications.view`	View notifications	Open the notification centre.	View	Granted	
17	Notification centre	Notification Center `/notifications`	`notifications.manage`	Mark notifications read	Mark one or all notifications as read.	Edit	Granted	

My Profile

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
My Profile › My profile								
18	Account	My Profile `/profile`	`profile.view`	View my profile	Open the user's own profile.	View	Always On	
19	Personal information	My Profile `/profile`	`profile.edit`	Edit my personal information	Update the user's own contact details.	Edit	Always On	
20	Security	Change Password `/profile/change-password`	`profile.password.change`	Change my password	Change the user's own password.	Edit	Always On	
21	Security	Security Setup, My Profile `/security-setup, /profile`	`profile.mfa.manage`	Manage my authenticator	Set up two-step verification and regenerate backup codes.	Manage	Always On	

TFA assistant

#	Section	Screen / route	Permission key	Permission	Purpose	Action	Access	Notes
TFA assistant › Assistant								
22		TFA Assistant panel (all signed-in screens) `TFA button / "Hey TF assistant"`	`assistant.chat`	Chat with the assistant	Ask the AI assistant questions and start new conversations.	Use	Granted	
23		TFA Assistant panel (all signed-in screens) `TFA button / "Hey TF assistant"`	`assistant.actions.confirm`	Confirm assistant actions	Approve or cancel actions the assistant proposes. The assistant can only do what the user's own permissions allow.	Use	Granted

3. Screen-wise permissions

Screen	Route	Module › Sub-module	Permissions held
Admin / Manager / Employee Dashboard	`/admin, /manager, /me`	Dashboard › Dashboard	`dashboard.analytics.view` – View charts and reports `dashboard.filters.use` – Use dashboard filters
Change Password	`/profile/change-password`	My Profile › My profile	`profile.password.change` – Change my password
Employee Dashboard	`/me`	Dashboard › Dashboard	`dashboard.view.own` – View my dashboard
Kanban Board	`/board`	TaskFlow Monitoring › Board	`board.view` – View board `board.filters.use` – Use board filters
Kanban Board, Task Details	`/board, /tasks/:id`	TaskFlow Monitoring › Board	`tasks.status.change` – Update task status
Mail	`/mail`	Communication Management › Mail	`mail.read` – Read mail `mail.compose` – Write and send mail `mail.organize` – Organize mail `mail.attachments` – Use mail attachments
My Profile	`/profile`	My Profile › My profile	`profile.view` – View my profile `profile.edit` – Edit my personal information
Notification Center	`/notifications`	Communication Management › Notification	`notifications.view` – View notifications `notifications.manage` – Mark notifications read
Security Setup, My Profile	`/security-setup, /profile`	My Profile › My profile	`profile.mfa.manage` – Manage my authenticator
TFA Assistant panel (all signed-in screens)	`TFA button / "Hey TF assistant"`	TFA assistant › Assistant	`assistant.chat` – Chat with the assistant `assistant.actions.confirm` – Confirm assistant actions
Task Activity History	`/tasks/:id/activity`	TaskFlow Monitoring › Task Management	`tasks.activity.view` – View task history
Task Discussion (comments)	`/tasks/:id/discussion`	TaskFlow Monitoring › Task Management	`tasks.comment.create` – Post task comments `tasks.comment.edit` – Edit own task comments `tasks.comment.delete` – Delete own task comments
Task List, Kanban Board, Task Details	`/tasks, /board, /tasks/:id`	TaskFlow Monitoring › Task Management	`tasks.view.own` – View my tasks

4. Not granted by default

Module › Sub-module	Screen	Permission key	Permission	Purpose
Dashboard › Dashboard	Manager Dashboard	`dashboard.view.team`	View team dashboard	Task statistics and team performance for the people the user manages.
Dashboard › Dashboard	Admin Dashboard	`dashboard.view.organization`	View organization dashboard	Task, department, project and employee statistics for the whole organization.
TaskFlow Monitoring › Task Management	Task List, Kanban Board, Task Details	`tasks.view.all`	View all tasks	See every task in the organization. Without it a user sees only tasks they created or are assigned to.
TaskFlow Monitoring › Task Management	Task List, Create Task	`tasks.create`	Create tasks	Create tasks, or copy an existing one, and assign them.
TaskFlow Monitoring › Task Management	Task List	`tasks.delete`	Delete tasks	Delete a task from the list or the details screen.
TaskFlow Monitoring › Task Management	Task Details	`tasks.update`	Edit tasks	Change the title, description, priority, deadline, reminders and other details of a task.

Module › Sub-module	Screen	Permission key	Permission	Purpose
TaskFlow Monitoring › Task Management	Task Reassignment	`tasks.reassign`	Reassign tasks	Move a task to another assignee.
TaskFlow Monitoring › Task Management	Task Details	`tasks.recipients.manage`	Manage task recipients	Choose who is notified about a task.
TaskFlow Monitoring › Employee Workload	Employee Workload	`workload.view`	View workload	Open the team workload view.
TaskFlow Monitoring › Employee Workload	Employee Workload	`workload.filters.use`	Use workload filters	Filter the workload table by project and employee.
TaskFlow Monitoring › Employee Workload	Employee Workload	`workload.tasks.open`	Open an employee's tasks	Follow the link from a workload row to that employee's task list. Task visibility still follows the user's task scope.
TaskFlow Management › Employee Management	Employee Management	`employees.view`	View employees	See the employee list and employee details.
TaskFlow Management › Employee Management	Employee Management	`employees.create`	Create employees	Add an employee.
TaskFlow Management › Employee Management	Employee Management	`employees.edit`	Edit employees	Change an employee's details.
TaskFlow Management › Employee Management	Employee Management	`employees.status.change`	Activate or deactivate employees	Switch an employee account on or off.
TaskFlow Management › Employee Management	Employee Management	`employees.role.assign`	Assign roles	Change which role an employee holds.
TaskFlow Management › Employee Management	Employee Management (employee details)	`employees.mfa.reset`	Reset two-step verification	Reset an employee's authenticator setup.
TaskFlow Management › Employee Management	Employee Management	`employees.delete`	Delete employees	Permanently remove an employee account.
TaskFlow Management › Project Management	Project Management	`projects.view`	View projects	See projects, their members and their tasks.
TaskFlow Management › Project Management	Project Management	`projects.create`	Create projects	Create a project.
TaskFlow Management › Project Management	Project Details	`projects.edit`	Edit projects	Rename a project and change its details.
TaskFlow Management › Project Management	Project Management	`projects.delete`	Delete projects	Delete a project.
TaskFlow Management › Project Management	Project Management (team dialog), Project Details	`projects.members.manage`	Manage project members	Add and remove the people in a project.
TaskFlow Management › Project Management	Project Management	`positions.create`	Create positions	Add a job position used when allocating people to projects.
TaskFlow Management › Department Management	Department Management	`departments.view`	View departments	See departments and the managers and employees in them.
TaskFlow Management › Department Management	Department Management	`departments.create`	Create departments	Create a department.
TaskFlow Management › Department Management	Department Management	`departments.edit`	Edit departments	Rename a department and change its details.

Module › Sub-module	Screen	Permission key	Permission	Purpose
TaskFlow Management › Department Management	Department Management	`departments.delete`	Delete departments	Delete a department.
TaskFlow Management › Department Management	Department Management	`departments.members.manage`	Manage department members	Choose the managers and employees in a department.
Report › Reports	Reports	`reports.view`	View reports	Open task reports and filter them.
Report › Reports	Reports	`reports.export`	Export reports	Download a report as a file.
Settings › Reminder Settings	Reminder Settings	`settings.reminders.manage`	Reminder settings	View and change deadline reminder settings.
Settings › Application Settings	Application Settings	`settings.application.manage`	Application settings	Change application-wide settings.
Settings › TFA Settings	TFA Settings	`settings.ai.view`	View AI provider settings	See which AI providers and models are configured.
Settings › TFA Settings	TFA Settings	`settings.ai.edit`	Edit AI provider settings	Configure AI providers, keys and models.
Settings › TFA Settings	TFA Settings	`settings.ai.test`	Test AI providers	Run a connection test against a provider.
Settings › TFA Settings	TFA Settings	`settings.ai.model.remove`	Remove AI models	Remove a configured model from a provider.
Settings › Role Configuration	Role Configuration	`roles.manage`	Manage roles and permissions	Open Role Configuration and create, edit and delete custom roles. Whoever holds it can also tick or untick it, and Assign roles, on custom roles.
Settings › Role Configuration	Role Configuration	`roles.view.all`	View all roles	If ticked, the logged user can see all roles. If unticked, they can only see their own permissions.
Settings › Role Configuration	Role Configuration	`roles.modify.access`	Modify access	If ticked, the logged user can add or update permissions. If unticked, all permissions are in view mode.
Settings › Role Configuration	Role Configuration	`roles.administrator.assign`	Give the Administrator role	Make an account an Administrator, or take the role away. Only the Administrator role holds it.
