1. Project Overview

1.1 Introduction

Department Management (menu **TaskFlow Management → Department Management**) is where administrators create departments and choose who manages them and who belongs to them. Department managers automatically become the managers of every employee in that department, and a manager's team includes everyone in the departments they manage.

1.2 Business Problem / Current Situation

- People need to be grouped for administration, team views and reporting.
- A separate "reports to" list goes out of date; TaskFlow derives a person's managers from the departments they belong to.

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

- Deleting a department that still has people in it would leave them without a group and their managers.

1.3 Project Objectives

ID	Objective	Success measure
OBJ-DEPT-01	Keep one clean list of departments	Every live department is listed once, with a unique name
OBJ-DEPT-02	Group managers and employees into departments	An administrator sets a department's managers and employees in one dialog and one save
OBJ-DEPT-03	Derive reporting lines automatically	Every employee's managers follow from the departments they belong to, with no typed "reports to" value
OBJ-DEPT-04	Protect the structure	A department with any member cannot be deleted

These objectives support the overall TaskFlow objectives in `../../00-Overall/BRD-TaskFlow-Overall.md`.

1.4 Expected Benefits

- Organisation: a clear structure that drives manager teams, the manager dashboard and task visibility.
- Administrators: quick creation of departments and bulk selection of members.
- Managers: their team is kept up to date automatically from the departments they manage.
- Employees: their managers are always correct.

---

2. Stakeholders & User Roles

2.1 Stakeholders

Stakeholder	Interest / responsibility
Project owner (Jojo George)	Defines priorities, approves this BRD
Administrators	Create departments and choose their managers and employees
Managers	Their team includes the members of the departments they manage
Employees	Their managers come from their departments

2.2 User Roles

Role	Description	Main responsibilities	Access level
Administrator	Full system owner	Add, edit and delete departments; manage members	Organisation
Manager	Plans and assigns work	No Department Management screen; may list departments in other screens (for example the employee form) through `departments.view`; can be a department manager	Organisation list, read only, through other screens

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Role	Description	Main responsibilities	Access level
Employee	Works on tasks	No access to this sub-module; can be a department member	None
Custom role	Role built in Role Configuration	Whatever department permissions it is granted; sees the screen only with at least one department action permission	As granted (Organisation)

3. Scope

3.1 In Scope

- Department list with search and member counts.
- Add, edit and delete departments.
- Manage members: choose the managers and employees of a department.
- Derived managers and manager teams based on department membership.

3.2 Out of Scope (this release)

- A read-only member list for users who cannot manage members – members are seen through counts and the Manage members dialog.
- A Department filter on the employee list – the employee list filters by project (see the Employee Management BRD).
- Nested (parent / child) departments – not requested.
- Paging of the department list – the list is searched on screen.

3.3 Modules Overview

#	Module	Purpose	Screens
1	TaskFlow Management → Department Management	Departments and their managers and employees	Department Management (list), Add / Edit department (dialog), Manage members (dialog)

4. Business Process / Workflows

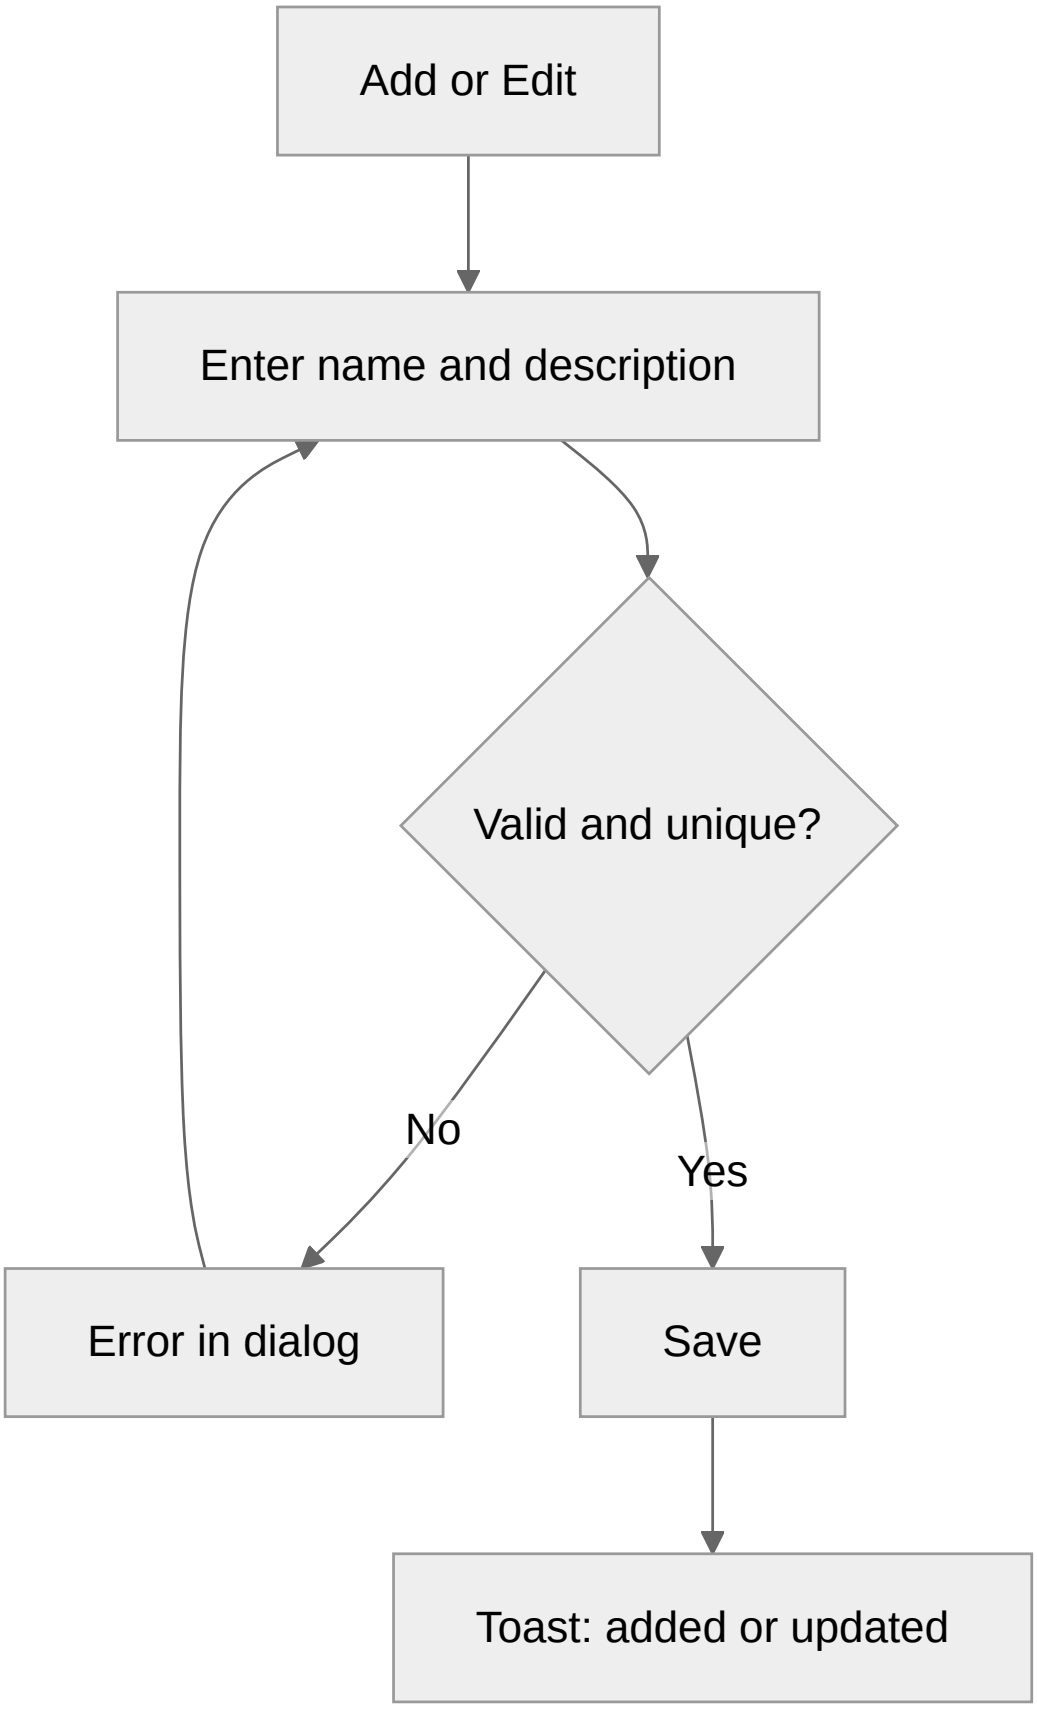

4.1 Add or Edit a Department

Trigger: A new group is formed or a department is renamed · **Actors:** Administrator, System

Step	Actor / System	Action	Result
1	Administrator	Clicks **Add department**, or **Edit** on a card	Dialog opens
2	Administrator	Enters the name and optional description, clicks **Add department** or **Save changes**	Data submitted
3	System	Checks the name is present and unique, ignoring case	Error, or saved

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Step	Actor / System	Action	Result
4	System	Shows "{name} added" or "{name} updated"	List refreshed

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Example: On 31-Oct-2026 the administrator adds department *Engineering* with description "Product engineering team". Adding "engineering" again shows "Department name already exists."

Exceptions / alternate flows:

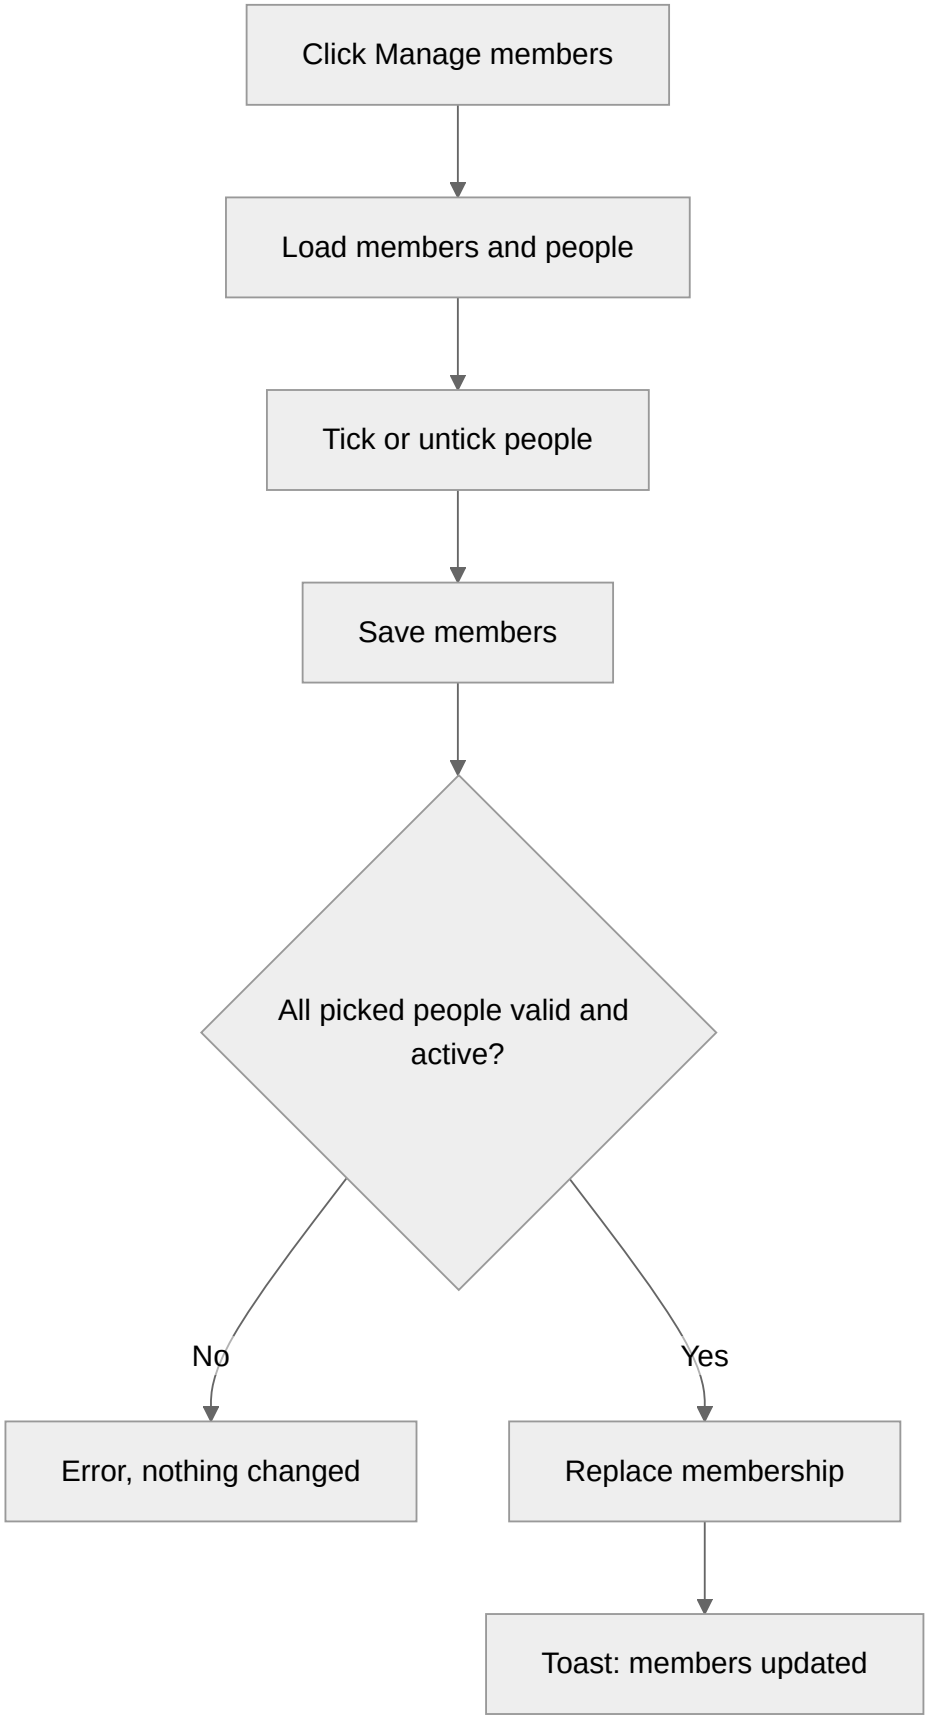

- Name missing → "Name is required."

4.2 Manage Department Members

Trigger: People join or leave a department · **Actors:** Administrator, System

Step	Actor / System	Action	Result
1	Administrator	Clicks **Manage members** on a card	Current members and all active Managers and Employees load
2	Administrator	Searches, sorts and ticks or unticks people	"{n} selected" updates
3	Administrator	Clicks **Save members**	Data submitted
4	System	Checks every picked manager is an active Manager and every employee is active	Error and nothing changed, or saved
5	System	Replaces this department's membership in one step	"{department} members updated"

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Example: The administrator opens *Engineering*, ticks Ravi Menon (Manager) and Anu Thomas and Arun K (Employees), and saves. The card shows "1 managers · 2 employees", and Ravi now appears as the manager of Anu and Arun in their employee details.

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

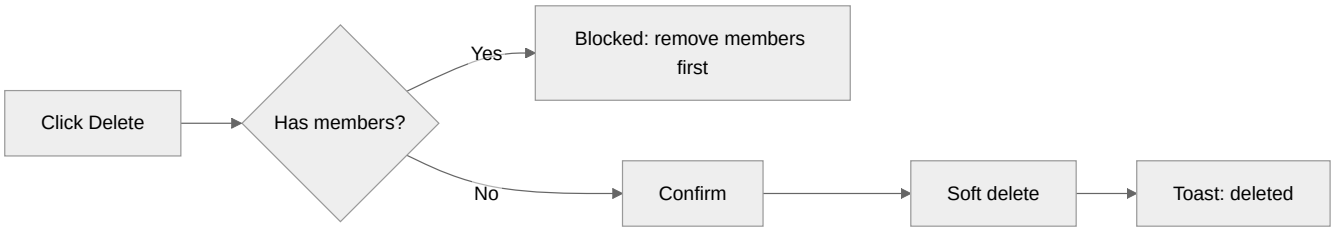

Exceptions / alternate flows:

- A current member has since been deactivated → shown ticked with an "Inactive" badge; saving with them ticked is refused.
- No active people exist → "There are no active managers or employees to pick from."

4.3 Delete a Department

Trigger: A department is no longer needed · **Actors:** Administrator, System

Step	Actor / System	Action	Result
1	Administrator	Clicks **Delete** on a card	If it has members, nothing happens and the tooltip explains why
2	Administrator	Confirms "Delete department?"	Request sent
3	System	Checks the department has no members, then hides it (soft delete)	"{name} deleted"

Example: *Pilot Team* has 1 employee. Delete is blocked with "Remove its managers and employees before deleting". After the administrator unticks that employee in Manage members, the delete succeeds and the name *Pilot Team* can be used again later.

Exceptions / alternate flows:

- Members added meanwhile by another administrator → "Department cannot be deleted because it still has members. Remove them first."

---

5. Screen-by-Screen Requirements

SCREEN 1: Department Management (list)

Field	Value
Screen name	Department Management
Module	TaskFlow Management → Department Management
Access	Administrator; custom roles holding at least one of `departments.create`, `departments.edit`, `departments.delete`, `departments.members.manage` (list data needs `departments.view`). Manager and Employee: no access
Priority	Must

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Purpose Organise managers and employees into departments.

Screen Elements

- Header with the department count and an **Add department** button.
- **Search by name** box.
- One card per department: name, description ("No description" when empty), "{n} managers · {n} employees".
- Card actions: **Manage members**, **Edit**, **Delete**.

Functional Requirements

ID	Requirement	Priority
REQ-DEPT-01	The system shall list every live department as a card with its name, description and the number of managers and employees.	Must
REQ-DEPT-02	The system shall show "No description" when a department has no description.	Could
REQ-DEPT-03	The system shall show the number of departments in the header.	Should
REQ-DEPT-04	The system shall let the user search departments by name.	Should
REQ-DEPT-05	The system shall show the Department Management menu item and screen only to users holding at least one department action permission, and send other users back to their dashboard.	Must
REQ-DEPT-06	The system shall show **Add department**, **Manage members**, **Edit** and **Delete** only to users holding the matching permission.	Must
REQ-DEPT-07	The system shall block deleting a department that still has any manager or employee and explain why.	Must
REQ-DEPT-08	The system shall ask for confirmation before deleting an empty department and then hide it.	Must
REQ-DEPT-09	The system shall allow the name of a deleted department to be used again.	Should
REQ-DEPT-10	The system shall show an empty-state message when there are no departments.	Could

Validations & Messages

Situation	Rule / message
Delete with members (tooltip)	"Remove its managers and employees before deleting"
Delete with members (on save)	"Department cannot be deleted because it still has members. Remove them first."
Delete confirmation	"Delete department?" – ""{name}" will be permanently deleted."
Deleted	"{name} deleted"
List failed	"Could not load departments. Check your connection and try again."

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Situation	Rule / message
Empty list	"No departments yet – Add the first department to start grouping managers and employees."
Delete refused	"Could not delete the department."

Expected Result Administrators see every department with its size and can remove a department only once it is empty.

Change from original BRD (Screen 6)

Original requirement	Current requirement
Department employee count	Separate counts of managers and employees
Display employees associated with each department	Counts on the card; the people are seen and changed in the Manage members dialog
Allow filtering employees by department	Not offered on the employee list (it filters by project). ⚠️ To be confirmed whether a Department filter is still wanted
Prevent deletion of departments that still have employees, unless handled safely	Deletion is blocked while the department has any manager or employee; deletion is a soft delete
(not in original)	Delete action, department managers, Manage members dialog

SCREEN 2: Add / Edit Department (dialog)

Field	Value
Screen name	Add department / Edit department
Module	TaskFlow Management → Department Management
Access	Administrator; custom roles with `departments.create` (add) or `departments.edit` (edit)
Priority	Must

Purpose Enter or change a department's name and description.

Screen Elements

- Name (required), Description.
- **Add department** / **Save changes** buttons.

Functional Requirements

ID	Requirement	Priority
REQ-DEPT-11	The system shall create a department with a required name of at most 200 characters and an optional description of at most 500 characters.	Must
REQ-DEPT-12	The system shall reject a department name already used by a live department, ignoring case.	Must
REQ-DEPT-13	The system shall let the user change a department's name and description.	Must

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

ID	Requirement	Priority
REQ-DEPT-14	The system shall confirm a successful save with "{name} added" or "{name} updated".	Should

Validations & Messages

Situation	Rule / message
Name missing	"Name is required."
Duplicate name	"Department name already exists."
Saved	"{name} added" · "{name} updated"
Save refused	"Could not add the department." / "Could not update the department."

Expected Result Each department has a unique, clear name.

Change from original BRD (Screen 6): "Allow administrators to create / edit departments" and "Prevent duplicate department names" are kept; uniqueness ignores case and applies to live departments only.

SCREEN 3: Manage Members (dialog)

Field	Value
Screen name	Manage members
Module	TaskFlow Management → Department Management
Access	Administrator; custom roles with `departments.members.manage` (the people list also needs `employees.view`)
Priority	Must

Purpose Choose the department's managers and employees.

Screen Elements

- Search box ("Search by name or username").
- Sorting: Name A to Z, Name Z to A, Selected first, Role.
- List of active Managers and Employees with tick boxes; "Inactive" badge on current members who are no longer active.
- "{n} selected", **Select all shown / Clear shown**, **Clear all**, **Save members**.

Functional Requirements

ID	Requirement	Priority
REQ-DEPT-15	The system shall list every active person with the Manager or Employee role for selection, with current members ticked.	Must
REQ-DEPT-16	The system shall keep current members who are no longer active in the list, ticked, with an "Inactive" badge.	Should

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

ID	Requirement	Priority
REQ-DEPT-17	The system shall let the user search the people by name or username.	Should
REQ-DEPT-18	The system shall let the user sort the people by name A to Z, name Z to A, selected first, or role.	Could
REQ-DEPT-19	The system shall show how many people are selected and let the user select or clear all shown people, or clear all.	Could
REQ-DEPT-20	The system shall save each ticked person as a department manager or a department employee according to their role.	Must
REQ-DEPT-21	The system shall accept as department managers only active people with the Manager role.	Must
REQ-DEPT-22	The system shall accept as department employees only active people.	Must
REQ-DEPT-23	The system shall reject the whole save if any picked person is not valid, changing nothing.	Must
REQ-DEPT-24	The system shall replace the department's managers and employees in one step, changing no other department.	Must
REQ-DEPT-25	The system shall allow a person to belong to several departments.	Must
REQ-DEPT-26	The system shall make the department's managers the managers of every employee in that department.	Must
REQ-DEPT-27	The system shall confirm a successful save with "{department} members updated".	Should

Validations & Messages

Situation	Rule / message
Bad manager	"User {id} is not an active manager."
Bad employee	"User {id} is not an active user."
No one to pick	"There are no active managers or employees to pick from."
Load failed	"Could not load the department members."
Save failed	"Could not save the department members."
Saved	"{department} members updated"

Expected Result Each department has the right managers and employees, and every employee's managers follow automatically.

Change from original BRD (Screen 6): new screen; the original BRD has no department managers or member dialog.

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

6. Business Rules

ID	Rule	Applies to
BR-DEPT-01	A department name is required (at most 200 characters) and unique among live departments, ignoring case; a deleted department's name can be reused.	SCREEN 2
BR-DEPT-02	A department with any manager or employee cannot be deleted; members must be removed first (global rule, overall BRD section 6: records with dependent data must not be deleted in a way that damages history).	SCREEN 1
BR-DEPT-03	Deleting a department is a soft delete: it is hidden from every list.	SCREEN 1
BR-DEPT-04	Only active people with the Manager role can be department managers; only active people can be department employees.	SCREEN 3
BR-DEPT-05	A member save is all-or-nothing and changes only that department's members.	SCREEN 3
BR-DEPT-06	A person may belong to several departments.	SCREEN 3
BR-DEPT-07	Department managers are the managers of every employee in that department; reporting lines are never typed in.	SCREEN 3
BR-DEPT-08	A manager's team is everyone in the departments they manage plus everyone on the projects they manage; the manager dashboard and task visibility use this team (shared with BR-PROJ-10).	SCREEN 3
BR-DEPT-09	Departments ticked when an employee is first added create the same memberships; afterwards memberships are changed only in Manage members (shared with BR-EMP-11).	SCREEN 3
BR-DEPT-10	A person who stops being a Manager, or is deleted, is removed as a department manager automatically (shared with BR-EMP-14).	SCREEN 3

> Global business rules marked "global rule, overall BRD section 6" are defined in section 6 of the overall BRD (`../../00-Overall/BRD-TaskFlow-Overall.md`); they apply to this sub-module in full.

7. Non-Functional Requirements

The global NFRs in section 7 of the overall BRD (`../../00-Overall/BRD-TaskFlow-Overall.md`) apply. Sub-module-specific requirements:

ID	Category	Requirement	Measure / target
NFR-DEPT-01	Data integrity	A member save never leaves a half-changed department	Either every membership change is stored or none is

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

ID	Category	Requirement	Measure / target
NFR-DEPT-02	Security	Permission checks are enforced by the server, not only by hidden buttons	A call without the needed permission is refused
NFR-DEPT-03	Usability	A blocked delete explains what to do	Tooltip and message name the fix (remove members first)
NFR-DEPT-04	Usability	Member selection works for larger groups	Search, sorting, select all shown and a selected count are available

8. Data Requirements

Entity / data set	Purpose	Key fields	Retention / rules
Department	A group of people	Name, description	Soft delete; name unique among live departments
Department manager link	Which Managers manage the department	Department, manager	Only active Managers; removed when the person stops being a Manager or is deleted
Department membership	Which employees belong to the department	Department, employee	Only active people; a person may be in several departments

9. Integrations & External Dependencies

System / service	Purpose	Required?	Notes
Employee Management	Supplies the people for the Manage members dialog; can set first memberships when an employee is added	Required	The dialog needs `employees.view`
Project Management	Combined with department managers to form a manager's team	Required	–
Dashboard / Task Management	Use the manager's team for the manager dashboard and task visibility; the organisation dashboard counts departments	Required	Read only from this sub-module's data
Email / Notifications	–	Not used	Department actions send no email or notification

10. Reporting Requirements

Not applicable for this sub-module. The card counts (managers and employees) are the only summary shown here.

11. Recommended Technology Stack (optional)

Not applicable for this sub-module. See the overall BRD.

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

12. Assumptions, Constraints & Dependencies

Type	Description
Assumption	Departments are a flat list; there is no hierarchy between departments.
Assumption	Only the Manager and Employee roles are offered in the member dialog.
Constraint	Only people with the Manager system role can be department managers.
Constraint	The department list is searched on screen and not paged.
Dependency	Employee Management (people and roles), Project Management (manager teams), Role Configuration (permissions).

13. Risks

ID	Risk	Impact	Likelihood	Mitigation
R-DEPT-01	A department deleted while people still belong to it leaves them without managers	High	Low	BR-DEPT-02 blocks the delete, checked again at save time
R-DEPT-02	Administrators and custom-role users can never be picked as department members, because the dialog lists only Managers and Employees	Medium	Medium	⚠️ To be confirmed whether other roles should be selectable
R-DEPT-03	Users without the member permission cannot see who is in a department	Low	Medium	⚠️ To be confirmed whether a read-only member view is needed
R-DEPT-04	The empty-state **Add department** button may show to users who cannot create departments	Low	Low	The server refuses the save; ⚠️ To be confirmed whether the button should be hidden
R-DEPT-05	A custom role with member rights but without `employees.view` sees an empty people list	Medium	Low	Grant `employees.view` together with `departments.members.manage`

14. Acceptance Criteria

ID	Criterion	Verified by
AC-DEPT-01	The list shows every live department with its manager and employee counts, and search narrows it.	SCREEN 1, REQ-DEPT-01 to REQ-DEPT-04, REQ-DEPT-10
AC-DEPT-02	Users without a department action permission see no menu item and are sent to their dashboard; buttons appear only with their permission.	REQ-DEPT-05, REQ-DEPT-06
AC-DEPT-03	A department with any member cannot be deleted; an empty one is deleted after confirmation and its name can be reused.	REQ-DEPT-07 to REQ-DEPT-09

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

ID	Criterion	Verified by
AC-DEPT-04	A department cannot be saved without a name or with a name already used by a live department, in any case.	SCREEN 2, REQ-DEPT-11 to REQ-DEPT-14
AC-DEPT-05	The Manage members dialog lists active Managers and Employees, keeps inactive current members visible, and supports search, sort and bulk selection.	SCREEN 3, REQ-DEPT-15 to REQ-DEPT-19
AC-DEPT-06	Saving members stores Managers as department managers and others as employees, and refuses the whole save if any pick is invalid or inactive.	REQ-DEPT-20 to REQ-DEPT-24, REQ-DEPT-27
AC-DEPT-07	A person can be in several departments, and each department's managers appear as the managers of its employees.	REQ-DEPT-25, REQ-DEPT-26

15. Requirements Traceability Matrix

Objective	Business rule(s)	Screen(s)	Functional requirement(s)	Acceptance criterion
OBJ-DEPT-01	BR-DEPT-01, BR-DEPT-03	SCREEN 1, SCREEN 2	REQ-DEPT-01 – REQ-DEPT-06, REQ-DEPT-09 – REQ-DEPT-14	AC-DEPT-01, AC-DEPT-02, AC-DEPT-04
OBJ-DEPT-02	BR-DEPT-04, BR-DEPT-05, BR-DEPT-06, BR-DEPT-09	SCREEN 3	REQ-DEPT-15 – REQ-DEPT-25, REQ-DEPT-27	AC-DEPT-05, AC-DEPT-06, AC-DEPT-07
OBJ-DEPT-03	BR-DEPT-07, BR-DEPT-08, BR-DEPT-10	SCREEN 3	REQ-DEPT-26	AC-DEPT-07
OBJ-DEPT-04	BR-DEPT-02	SCREEN 1	REQ-DEPT-07, REQ-DEPT-08	AC-DEPT-03

16. Project Deliverables

#	Deliverable	Format
1	Department Management screens (list, add/edit dialog, Manage members dialog)	Application source code
2	Department, manager-link and membership data	Database initialisation
3	BRD, FRD, HLD, LLD for Department Management	Markdown
4	Tests for department rules and members	Test project and results

17. Glossary

Term	Meaning
Department	A flat group of managers and employees
Department manager	An active person with the Manager role who manages a department
Department employee	An active person who belongs to a department

© 2026 Jojo George. All rights reserved. · jojogeorge3344@gmail.com

Term	Meaning
Derived manager	A manager worked out from a person's departments (and projects), never typed in
Manager's team	People in the departments a Manager manages plus people on the projects they manage
Soft delete	Hiding a record from every list while keeping it

18. Project Summary

Department Management lets administrators create departments, choose their managers and employees in one dialog, and remove a department only once it is empty. Department managers become every member's managers automatically, so reporting lines, manager teams, the manager dashboard and task visibility stay correct without a separate "reports to" list.
